ABSTRACT

Profiles of each of the six agricultural and technical colleges, 29 community colleges, and three other colleges offering two-year programs within the State University of New York (SUNY) system are presented. Tuition and other costs as well as availability of financial assistance are outlined. A description of the Educational Opportunity Program which offers academic and financial aid support to less advantaged students, along with a list of Program centers in the state, is also presented. A list of admissions staff, campus descriptions, housing availability, campus activities, enrollment, admissions criteria, academic programs of study, number of faculty, tuition refund policy, graduate follow-up data, and other information are listed for each of the colleges. Curriculum charts describe the programs available at the colleges. (MB)

Curriculum Charts 47

The programs available at the colleges described in this book are listed in several charts:
There is one set of charts for the Agricultural and Technical Colleges.
There are two sets of charts for the Community Colleges: one set for those colleges which participate in the Common Application Program through the Application Processing Center (APC); and one set for those colleges which use their own application form and application process.
Please be sure to check each of the charts for the curriculum of your choice.
The curriculum are listed in alphabetical order. Major programs are listed in capital letters. Options (fields of concentration within a major) are listed alphabetically and also indented under their respective major. The key to the letters appearing in the columns under the college names is in the upper left corner of each chart.

Dates to Remember ..... **inside cover**

***These colleges participate in the Common Application Program through the Application Processing Center (APC).**

What is SUNY?

Is it a college? Is it a place? Neither! SUNY is 64 colleges in 64 places!

That's right. The State University of New York is a coordinated network of 64 individual institutions of public higher education, located in virtually every region of the state.

Through SUNY, a full spectrum of programs – from short term vocational/technical courses to extended post-doctoral studies – is available to meet the educational needs of the citizens of New York.

FOUR UNIVERSITY CENTERS

Each of these moderately large (10,000 to 24,000 students), residential campuses includes an undergraduate college as well as various graduate schools. The undergraduate colleges offer many four-year programs leading to a Bachelor's degree in the liberal arts and sciences. The graduate schools are for more specialized study in programs leading to a Master's degree (one to two years of study beyond a Bachelor's degree) or Doctoral degree (one to three years of intensive study beyond the Master's).

THIRTEEN COLLEGES OF ARTS AND SCIENCE

These campuses are smaller in size (3,000 to 11,000 students) than the university centers, residential, and offer liberal arts and science programs at both the Bachelor's and Master's levels. Program offerings are virtually unlimited – from Business Administration to Nuclear Science, from Meteorology . . . to Marketing . . . to Music.

EIGHT SPECIALIZED COLLEGES

Smaller than either the university centers or the colleges of arts and science, these colleges serve students with special educational/career aims. Four of these colleges, located at private university campuses, are statutory colleges. Programs lead to the Bachelor's degree and, in many cases, offer opportunities for graduate study.

SIX COLLEGES AND CENTERS FOR THE HEALTH SCIENCES

These six colleges train professionals in the health related fields. The Buffalo and Stony Brook Health Sciences Centers are part of their respective university centers.

SIX AGRICULTURAL AND TECHNICAL COLLEGES

The "Ag & Techs", with enrollments from 2,600 to 4,000 students (except Farmingdale which has over 13,000), are residential and offer a variety of Associate degree programs (two-year) in liberal arts, agriculture, and the technologies. There are four types of Associate degrees available. Associate degrees in Arts and Science are earned in programs which generally parallel the first two years of the liberal arts program at the four-year colleges. Associate degrees in Applied Science or Occupational Studies are earned through programs in the technical and semi-professional occupations (i.e., business, industry, health and social services, etc.).

TWENTY-NINE COMMUNITY COLLEGES

Developed primarily to serve educational needs in their specific localities, the community colleges range in size from 1,200 to 17,500 students. The community colleges offer two-year Associate degree and one-year Certificate programs in the liberal arts and various technical and occupational areas.

These sixty-four campuses offer a wide variety of academic opportunities and student life styles.

There are colleges in the city and colleges in the country; colleges close to your home and colleges far across the state; large colleges and small.

Beneath its diversity, however, SUNY is really just **people** . . . people who teach and people who want to learn, and people who provide services that make the teaching and learning possible.

In *PROFILES* we tell you a little about each of the SUNY undergraduate colleges so that, whatever program you're interested in and wherever in the state you want to be, you can find the SUNY college that is "just right" for you!

ADMISSION TO A CAMPUS OF THE STATE UNIVERSITY OF NEW YORK IS BASED ON THE QUALIFICATIONS OF THE APPLICANT, WITHOUT REGARD TO SEX, RACE, AGE, COLOR, CREED, NATIONAL ORIGIN, DISABILITY OR HANDICAP.

About Profiles

There are two volumes of *PROFILES*: one for the four-year colleges, and one for the two-year colleges. The *PROFILES* have been structured to include the following information about each undergraduate campus:

ADDRESS

ADMISSIONS STAFF/PHONE NUMBER

CAMPUS – Location and brief description

HOUSING – General availability, type, requirements

CAMPUS ACTIVITIES

ENROLLMENT – Figures, provided by SUNY Office of Institutional Research and Analytical Studies, reflect the enrollment level for Fall 1977.

TUITION COST – Unless indicated otherwise, the annual tuition cost at SUNY state-operated colleges is as follows:

	New York State Residents	Non-New York State Residents
Freshmen/Sophomores	Annual tuition – $750	Annual tuition – $1,200
	Per credit hour – $ 25	Per credit hour – $ 40
Juniors/Seniors	Annual tuition – $900	Annual tuition – $1,500
	Per credit hour – $ 30	Per credit hour – $ 50

ADMISSIONS CRITERIA – Applicants should consider the mean figures – provided by the individual campuses – only as general guidelines, not as absolute limits. For information about prerequisites for specific programs, please consult the college Admissions Office or catalogue.

ACADEMIC PROGRAMS OF STUDY – In addition to any programs listed, a complete list of the programs offered by each campus is in the *"Curriculum Charts"* at the back of this publication. For program or course descriptions please consult the college catalogue.

FACULTY – Figures, provided by SUNY Office of Institutional Research and Analytical Studies, reflect faculty staffing for Fall 1977.

TUITION REFUND – Unless indicated otherwise, the SUNY refund policy for official withdrawal at the state-operated colleges is as follows:

100% during the first week of class
70% during the second week
50% during the third week
30% during the fourth week
no refund for withdrawal after the fourth week of class

The $50 tuition deposit, the housing deposit, and student activities fees are generally non-refundable.

GRADUATES – Percentages (provided by the individual campuses) are, in many cases, based on the results of recent alumni surveys and consequently may indicate the percent of students responding rather than the percent of the graduating class.

In addition to the campus information, a *Glossary* follows which identifies and explains some frequently used admissions/college terms. Other sections, on *EOC, EOP,* and *Financial Aid,* will give you a broad look at what is generally available in those areas.

At the end of each of the *PROFILES* booklets is a chart of all the major programs and options available at the four-year or two-year colleges. You can use the *Curriculum Charts* to find out what programs are offered by a particular college or which colleges offer the program in which you are interested.

After you have a general idea about what college or program interests you, you will probably want to talk with your high school guidance counselor. For more specific information, please consult the catalogue printed by each college. SUNY applications and financial aid information are available in high school guidance offices.

If you have the opportunity, a visit to college campuses can be a big help in deciding where to apply. The people in each SUNY admissions office will be pleased to answer your questions.

Glossary

ACT – American College Test – a college entrance exam administered by the American College Testing Program; given several times a year in testing centers (usually high schools) around the state. Generally, this test should be taken in Spring of junior year or Fall of senior year. (Exam fee required.)

APC – Application Processing Center – coordinates the processing of applications for 46 of the 64 SUNY colleges. These 46 colleges use common application materials (S-1 form) which, when completed by students, are sent to APC (in Albany) for processing and then forwarded by APC to the individual colleges. APC does **not** make admission decisions.

ASSOCIATE DEGREE – awarded after completion of two years of study in an approved degree program. There are four types of Associate degrees:

Associate in Arts (A.A.) and *Associate in Science* (A.S.) generally awarded in liberal arts programs; most acceptable as transfer programs to four-year colleges.

Associate in Applied Science (A.A.S.) – generally awarded in career programs; a limited number of credits will transfer to a four-year program (liberal arts courses will transfer).

Associate in Occupational Studies (A.O.S.) – generally awarded in career programs; a very limited number of credits will transfer to a four-year program.

BACHELOR'S DEGREE – generally *Bachelor of Arts* (B.A.), *Science* (B.S.), *Engineering* (B.E.), *Fine Arts* (B.F.A.), *Professional Studies* (B.P.S.), or *Technology* (B.TECH.) – awarded after successful completion of an approved four-year program of study; sometimes referred to as Baccalaureate degree.

CERTIFICATE PROGRAM – one year of study generally in a career or technical field. (Certificate credits will generally **not** be accepted as transfer credits into a two-year Associate or four-year Bachelor's degree program.)

DEFERRED ADMISSION – an accepted student may delay the beginning of his/her studies for up to one year, with permission of college officials.

EARLY ADMISSION – qualified high school students may be admitted and begin studies at a college after completing Grade 11; after the freshman college year a high school diploma will be awarded (assuming all high school graduation requirements have been met).

FULL OPPORTUNITY – a policy at most community colleges which makes admission available to any person from the sponsoring area (generally the county in which the community college is located).

MEAN – refers to the 'average' score or scores.

OPEN ADMISSION – a policy of most community colleges which makes admission to the college available to all applicants having a high school diploma or its equivalent (some programs, however, are selective and require that certain previous coursework be completed).

PSAT – Preliminary Scholastic Aptitude Test – a shortened form of the SAT generally taken in the Spring of the junior year. (Exam fee required).

ROLLING ADMISSION – all applications to a college which offers rolling admission will be reviewed on a first-come/first-served basis, with no application deadline. Generally programs will be

filled as applications are received. Although all community colleges and ag & techs operate on rolling admission, some high demand programs do have deadline dates and all applications received by a specified date are given selective consideration for admission.

SAT – Scholastic Aptitude Test – a college entrance exam (often referred to as 'college boards') administered by the College Entrance Examination Board; given several times a year in testing centers (usually high schools) around the state. Generally, this test should be taken in the Spring of junior year or Fall of senior year. (Exam fee required.)

SPECIAL TALENT ADMISSION – at some campuses students may be considered for admission based on potential which is not entirely demonstrated in the official high school academic record. Generally, students who do not meet the minimum academic criteria of the college may be considered on the basis of talent in areas such as music, theatre, the literary arts, philosophy, leadership, a special academic strength, etc.

TIME-SHORTENED DEGREE PROGRAMS – enables highly qualified high school graduates to earn a Bachelor's degree in three years instead of four. Entrance into a Time-Shortened Degree program is generally at the discretion of the college.

Costs and Financial Assistance

The cost of attending college varies considerably depending upon the college you choose, its location, where you reside, whether you attend full/or part-time, the courses in which you enroll, your style of living, and other individual factors. The following table shows "typical" student budgets for a nine-month academic year for full-time undergraduates.[1]

	Resident[2]	Commuter[3]
Tuition	$520–750	$520–750
Fees	125	100
Room and Board	1670	825
Books and Supplies	200	200
Personal Expenses	475	475
Transportation	200	380
	$3,190–3,420	$2,500–2,730

[1] This book was prepared well in advance of the 1979-80 academic year. Thus, all indicated costs are subject to change.

[2] A resident student lives away from home either in on-campus residence halls or in private housing in the community.

[3] A commuter student lives at home and commutes daily to the college. The room and board costs shown are the average cost to the student's family of maintaining him/her at home while attending college.

Students are urged to apply for financial assistance if they have any doubt as to whether they can fully afford the cost of attending a SUNY institution. Financial aid is available to eligible students in the form of grants (need not be earned or repaid); loans (must be repaid); or employment (assistance provided through hourly earnings).

The distribution of student financial aid at each campus is based on financial need. Each financial aid application is evaluated and a financial aid package is developed for eligible students based on individual factors. The table that follows shows ranges and averages for incomes and financial assistance for aid recipients in recent years.

There is no income cut-off as such. Financial need is based on the family's total financial situation including: income, assets, size of family, number in college, and unusual expenses. In the table to the right you will find the average family income of financial aid recipients at SUNY Two-Year Colleges. Please understand that *these are averages only.* The actual family income of recipients ranges from $0–25,000 or more, depending upon individual circumstance.

Average Family Income of Financial Aid Recipients at Two-Year Colleges of the State University of New York

Number of Family Members	Average Family Income
3	$11,500
4	$13,500
5	$15,000
6	$16,000

Funds available at the campuses include federal grants, loans, and employment programs. The following indicates a profile of the average awards made to students in the Two-Year Colleges.

Type	Program	Average Award
Grant	Supplemental Educational Opportunity Grant (SEOG)	$450
Loan	National Direct Student Loan (NDSL)	$650
Employment	College Work-Study Program (CWSP)	$650

There are other types of grant and loan programs, which may be used to attend any SUNY institution.

Grant Programs

New York State offers the Tuition Assistance Program (TAP) to students whose Family New York Net Taxable Income is $20,000 or less. Awards range from $200 to full tuition. Recent information shows 61,000 students in SUNY Two-Year Colleges received average TAP awards of $400.

The federal government offers the Basic Educational Opportunity Grant (BEOG). Awards under this program range from $200 to $1,600. Recent average awards to students at SUNY Two-Year Colleges was $775. Although most of these 30,000 recipients had incomes of less than $15,000, many had higher incomes. Awards are based on family income and assets, size of family, number in college, and extraordinary expenses.

Guaranteed Student Loan Program

In addition to the programs explained above, the Guaranteed Student Loan Program (GSLP) provides students with funds for educational purposes. Students may borrow up to $2,500 per class year, not to exceed $7,500 for undergraduate study. Students whose family adjusted gross income is $25,000 or less are not required to make interest payments while in school. Approximately 14,000 students at SUNY Two-Year Colleges borrow an average of $1,200 each.

Educational Opportunity Centers

Educational Opportunity Centers offer educational services to students who wish to expand an educational background which may have been limited by inadequate academic preparation or limited financial resources. Some of the services provided by the EOC include: background educational programs, high school equivalency, college preparation programs, occupational training, special testing, job referral, and counseling about college. The Centers, administered by their local SUNY colleges, serve 8 communities throughout New York State.

For further information about the EOC programs, write to the Director at the Educational Opportunity Center nearest you:

Educational Opportunity Program

The Educational Opportunity Program, administered by the State University of New York, is an academic and financial aid support program designed to provide a two-year or four-year college education for capable students who have not had the same opportunity as other students to realize their academic potential. EOP serves various kinds of students with a variety of backgrounds. Those served include students who:

- have had difficulty in furthering their education
- have been unable to find suitable employment because of their limited educational background
- have had an inadequate academic preparation for college
- are receiving public assistance and who have limited financial resources
- have lived in deprived econom c and social conditions
- have long-term unemployment needs.

To help EOP students successfully complete college, the program provides tutoring personnel and educational counseling, academic advisement, career planning services, and financial aid (to help defray the cost of room, board, tuition, books, and personal expenses).

All SUNY four-year colleges have an EOP program except Downstate Medical Center, College of Optometry, and College of Ceramics at Alfred University.

Who is Eligible

To be eligible for admission to EOP you must:

- be a New York State resident
- have received a New York State high school diploma or its equivalent
- be ineligible for admission under normal standards but able to show the campus EOP admission committee potential for completing a college program
- be in need of financial assistance.

Are Transfers Eligible?

Transfer students are eligible if they have been enrolled in EOP, HEOP (Higher Educational Opportunity Program), SEEK (Search for Education, Elevation, and Knowledge), or a program similar to EOP. If no EOP or similar program existed at the previous college at the time the applicant attended, or if EOP was not requested at the previous college, the applicant should notify the transfer college.

What Determines Financial Eligibility?

Based upon the number of dependents in the household (family members supported by the family income), your income must fall within the guidelines listed below.

Number of Dependents in Household (including head of household)	Gross Family Income
1	$ 4,780
2	5,920
3	7,540
4	9,050
5	10,460
6	11,710
7	12,870
8	13,920
9	14,850
10	15,660

Applicants will be required to submit the latest income tax statements and other financial documents that will substantiate financial eligibility.

Exceptions to the guidelines above:

a) If the household is supported by two workers, or if one worker is the sole support of a one parent family, the income level can be raised by $1,000.

b) Income guidelines need not be followed if:
   - the student's family receives payments from a New York State County Department of Social Services
   - the student is living with foster parents who do not provide support for college, and no money is provided by the natural parents
   - the student is a ward of the State or a County

Application Procedures

High school grades, class rank, and standardized test scores alone are not always sufficient in providing an accurate picture of a student's academic ability or potential to do college work. Therefore, students applying for admission to EOP must provide supplementary information in addition to the admissions application. Supplementary information, including letters of recommendation and personal statements, is especially important in assessing an individual's capability when the traditional methods of evaluation (high school grades and test scores) are not a true measure of potential. For more information about EOP and the EOP Admissions Office, contact any Admissions or EOP Office at a SUNY campus.

Agricultural and Technical College
Alfred, NY 14802

ADMISSIONS STAFF (607) 871-6215
James J. Grillo, Dean of Admissions and Records
Donald W. Cameron, Director of Admissions
Charles B. Hovorka, Admissions Counselor
Reed D. Lowrey, Admissions Counselor

CAMPUS
The campus is located off Routes 21 and 244 in the village of Alfred, 72 miles south of Rochester, 90 miles southeast of Buffalo, and 7 miles west of Exit 33 of the Southern Tier Expressway (Route 17). The 150-acre residential campus was completed in 1973. The schools of Agriculture, Business, Engineering, Health, and Liberal Studies are located in a central academic complex which is surrounded by residence halls and student service facilities. A sixth school, Vocational Studies, is on a separate 20-acre, 23 building campus in Wellsville, 14 miles southwest of Alfred off Routes 19 and 417.

HOUSING
Twelve co-ed residence halls are available for 2,700 students. Students may request either traditional corridor-type or suite-style facilities. Residences offer a choice of life styles such as single-sex or co-ed, intensive study, an area for students 20 or older, etc. Limited off-campus housing lists are available in the Office of Residential Life. There are no campus facilities for married students. Students are allowed cars.

Wellsville campus students are expected to obtain private housing in the Wellsville area by choosing from the listings maintained by that campus.

CAMPUS ACTIVITIES
The approximately 65 organized activities listed in the student handbook are comprised of three main areas: College Service Organizations including student government, music and drama, publications, and varsity sports; Curriculum/Professional Interest Organizations such as the American Marketing Association and the Agricultural Engineering Club; special interest organizations such as the Karate Club, Rescue Team, or intramural sports. The Student Activities Center is the setting of most activities, along with the Lake Lodge recreational area and the Pub. Numerous social, recreational, and cultural events complete the annual activities in which all students are encouraged to participate.

ENROLLMENT 4,138
59% Male 41% Female
96% Full-time 4% Part-time

Average size of Freshman Class: 2,200

ADMISSIONS CRITERIA
All admissions to Alfred Ag and Tech are selective. The applicant's **total** high school record is the most important factor. Scores on either the ACT or SAT are required for all Alfred campus programs and are strongly recommended for the Wellsville campus programs.

An applicant must apply for admission to a specific curriculum. Rolling admission begins December 1. The initial selection, however, for certain low quota and/or high interest programs such as Nursing, Horticulture, and Architectural Technology may be delayed until January to allow a greater number of applicants equal consideration. Selection for admission in these program may be considerably more competitive, requiring higher high school average, test scores, rank in class, etc.

High school course requirements will vary from program to program — please refer to the curriculum entrance requirement chart in the Alfred catalog, i.e., all engineering curriculum except one require algebra but others may require math through trigonometry or introduction to calculus.

ACADEMIC PROGRAMS OF STUDY
Forty-four associate degree curriculum are offered within the six academic schools of the college.

The School of Engineering Technology has long been a pioneer in offering a wide range of quality programs, some accredited by the Engineering Council for Professional Development. While a majority of the Engineering Technology graduates obtain employment in their field of study, approximately one-third transfer to four-year colleges. Graduates of our highly competitive, university-parallel Engineering Science transfer program are actively recruited by public and private engineering schools.

Three of the five selective curriculum of the School of Allied Health Technologies have received professional accreditation. The recent state and national examination results for licensing or registration of the graduates from all three of the accredited programs were outstanding.

Alfred Ag and Tech's well-developed and equipped School of Agriculture is the only one in the state offering a curriculum in Food Marketing and Consumer Protection. The comprehensive facilities of the

Horticulture Department is a strong factor in the competition for admission into the horticulture programs. (See Curriculum Charts in the back of this publication for complete program offerings.)

Agricultural and Technical College
Canton, NY 13617

ADMISSIONS STAFF **(315) 386-7123**
Robert Raymo, Director of Admissions
Raymond Broglie, Assistant Director of Admissions
Kathryn Barr, Admissions Counselor

CAMPUS
The 555-acre campus overlooks the Grasse River just outside the village of Canton off Route 68. The campus is approximately 135 miles northeast of Syracuse. The area is serviced by Greyhound Bus Lines and Allegheny Airlines.

The hub of the campus is occupied by 14 buildings with parking facilities for students and faculty. There are four residence halls on campus with neighboring facilities for approved off-campus housing. Other main buildings include our 40,000 volume Southworth Library, physical education building, Student Union, and laboratory and engineering technology buildings. There are an additional 365 acres of test farms for our Division of Agriculture and Life Sciences.

HOUSING
Our four on-campus dormitories accommodate a little less than half our student population. The dormitories contain a cluster of three wings with a main lounge in the center. Each cluster wing is divided (based on student opinion) into men, women, or co-ed (by floor). Each three-story dormitory can accommodate approximately 300 students (2 or 3 to a room). The school does not require on-campus living except for minors. Even though on-campus housing is not required, on-campus facilities are usually filled quite early. Off-campus modern units for 400 students are within walking distance of the campus, along with various opportunities for village accommodations.

CAMPUS ACTIVITIES
All students are urged to participate in the social, cultural, and recreational activities at the College. Through the Student Cooperative Alliance, the students are totally responsible for the planning, budgeting, and coordination of all activities and athletic programs.

The ATC Student Union is the center of all campus activities. It includes a theatre, bookstore, pub, post-office, snackbar, lounge, and recreation room.

There are 16 active organizations including two sororities and two fraternities. Intercollegiate athletics include ice hockey, lacrosse, soccer, basketball, skiing (men's and women's), and women's volleyball and basketball. Intramural athletics and activities include badminton, swimming, ping pong, bowling, softball, fishing, golf, chess, pool, track, and tennis.

ENROLLMENT **2,614**
59% Male 41% Female
87% Full-time 13% Part-time
Average size of Freshman Class: 1,400

ADMISSIONS CRITERIA
The Admissions Policy of Canton Ag & Tech is based upon the following broad principles:

Within the limits of its capacity, the college will

admit all qualified applicants to the curriculum of their choice. (The qualified applicant will be one who appears to have a reasonable chance for success in the curriculum of his/her choice.) A flexible instruction program offers remedial instruction, tutoring, and special academic counseling. Rolling admission notification begins December 1 for the Fall semester and November 1 for the Spring semester.

Prerequisite high school courses for most Associate degree programs include two years of math and may include biology and chemistry. One-year Certificate programs generally do not require specific high school prerequisite courses. Please see annual information sheet regarding specific curriculum requirements and criteria.

ACADEMIC PROGRAMS OF STUDY

The school offers 34 Associate degree programs (with options) and seven one-year Certificate programs in the following divisions: Agricuture and Life Sciences, Business and Public Service, Arts and Sciences, and Engineering. High demand programs are Nursing, Veterinary Science Technology, Electrical Technology, and Criminal Justice. (See Curriculum Charts in the back of this publication for complete program offerings.)

In addition, cross-registration opportunities are available through Canton's membership in the Associate Colleges of the St. Lawrence Valley.

CAMPUS

The main campus is composed of 40 buildings on 500 acres located on Route 7 on the western outskirts of Cobleskill. The village is primarily a rural residential community of approximately 6,000 – the largest village in Schoharie County. Campus facilities include: an indoor riding arena; livestock judging pavilion; arboretum; six lane, olympic-size pool; meat processing laboratories; on-campus nursery school; and modern, well-equipped food laboratories.

HOUSING

Ten dormitories on campus house about 2,000 students. Limited off-campus housing is also available. Traditional and co-educational dormitories are available.

CAMPUS ACTIVITIES

Departmental clubs; religious organizations; yearbook; little theatre; musical organizations; fraternities and sororities; honor societies; student government; extensive intramural program; radio station; convocations; movies; and intercollegiate competition in archery, badminton, baseball, basketball, bowling, cross country, diving, field hockey, golf, lacrosse, rifle, skiing, soccer, softball, swimming, tennis, track, volleyball, water polo, and wrestling.

ENROLLMENT 2,683

45% Male 55% Female
95% Full-time 5% Part-time

ADMISSIONS CRITERIA

Cobleskill operates on a rolling admissions policy.

While it is recommended that candidates submit SAT or ACT scores, in certain instances test results may be required. **Admission to the college is by curriculum,** and is often very competitive for some Associate degree programs. A specially designed informational program, known as Campus Visitation Day, established by the College for candidates and parents, illustrates our concern for students as individuals. This unique and required procedure affords every applicant an opportunity to visit the campus, attend a general session with a divisional chairman, have a personal or small group conference, meet various other members of the professional staff, and have lunch if desired. No decision will be made until the student has completed a scheduled Campus Visitation Day program. Delay in completing this procedure may jeopardize candidate's chances of acceptance.

All candidates are encouraged to include in their high school program as many college preparatory courses as possible. One unit of academic mathematics and one unit of a laboratory science are considered minimal. In the class accepted for Fall 1977, 90% had successfully completed 1 unit of academic mathematics, 76% had 2 units, 60% had 3 units, and 14% had 4 units. In the sciences, 82% had successfully completed biology, 52% had chemistry, and 14% had physics. Fisheries and Wildlife Technology is a highly competitive program for which algebra, geometry, biology, and chemistry are recommended high school prerequisites. The same prerequisites are recommended for Science Laboratory Technology.

The mean high school average for accepted students is approximately 80. The mean SAT score of students accepted for 1977 to Recreation Land Management and Fisheries and Wildlife Technology was over 1000.

Students seeking admission to Floriculture, Fisheries and Wildlife Technology, Horse Husbandry, and Food Serivce Administration – Professional Chef are urged to apply early as these programs are very popular.

ACADEMIC PROGRAMS OF STUDY

Major Academic Divisions are: Agriculture, Business, Food Service Administration, Liberal Arts, Nursery Education, and Science Laboratory Technology.

ADMISSIONS STAFF (607) 746-4246

Glenn L. Reynolds, Director of Admissions
Thomas A. Banks, Admissions Counselor
John T. Ellis, Admissions Counselor
Robin B. Tepper, Admissions Assistant

CAMPUS

The College is located on Main Street in Delhi near the intersection of Routes 10 and 28.

The main campus is located on a 400-acre site overlooking the Village of Delhi. The site includes dormitories, dining halls, classrooms, laboratories, a library, and a student center. Nearly all buildings have been constructed since 1962.

The Valley Campus Complex lies less than a mile south of the main campus. Most of the valley area is now taken up by the College-owned golf course, a 160-acre Agricultural Center, and an arbore-

tum. Innovative educational programs utilize this unusual laboratory of natural resources.

HOUSING

The five on-campus residence facilities accommodate approximately 1,500 students in a variety of housing arrangements. Delhi cannot accommodate all students who prefer on-campus housing, and late applicants must seek off-campus facilities. An apartment complex, housing 400 students, adjoins the main campus. Other students live in a variety of off-campus facilities.

CAMPUS ACTIVITIES

Students may join any of approximately 50 school-sponsored clubs and organizations representing a wide range of recreational, religious, professional, vocational, and cultural interests. The College Union is the hub of campus life.

ENROLLMENT 2,825

58% Male 42% Female
93% Full-time 7% Part-time

Average size of Freshman Class: 1,480

ADMISSIONS CRITERIA

An applicant to Delhi must apply for a specific curriculum; admissions criteria vary widely. Because certain curriculum draw large numbers of applications, rigid enrollment quotas have been established, making competition for such programs very keen. Some programs, however, are available to all high school graduates. See the Delhi college catalog for specific entrance requirements.

Delhi operates on rolling admissions except for the Veterinary Science Technology program (selective decisions are made for this program after a January 15 application deadline). Decisions for all other programs are rendered as soon as all application materials are received and processed by the Admissions Office. Early application for most programs is very important.

ACADEMIC PROGRAMS OF STUDY

Delhi offers Associate in Applied Science programs in the following Academic Divisions: Agriculture and Life Sciences, Management, Engineering Technologies, Individual Studies, and Liberal Arts and Sciences. The Vocational Division offers Certificate and Associate in Occupational Studies programs in a variety of trade-related areas. (See Curriculum Charts in the back of this publication for complete program offerings.)

Paula R. Shaer, Director of Admissions
Robert E. Shearer, Associate Director of Admissions
Herbert H. Curkin, Assistant Director of Admissions
Donald K. Harvey, Senior Counselor
Janet Z. English, Counselor
Angela M. March, Counselor
Janet Snyder, Counselor

CAMPUS

The College is located in the suburban community of Farmingdale, on the border of Nassau and Suffolk counties in Long Island, approximately 30 miles east of New York City. A total of 31 buildings and 8 residence halls plus a modern dining room are on the campus.

HOUSING

Both co-ed and single-sex on-campus residence facilities are available for approximately 1,200 full-time day students. Yearly costs for room and board range from $1,350-1,700.

CAMPUS ACTIVITIES

A broad variety of clubs and organizations cover the areas of student self-government, concerts, dances, college union management, and recreational activities. Activity hours are included during the week for the benefit of commuter students. The college union recreational facilities include: a gymnasium, bowling alleys, pool tables, and game machines. The main athletic facility, Nold Hall, has an indoor arena which can accommodate 5,000 people. It houses a swimming pool, dance instruction room, and handball and squash courts. The outdoor area encompasses sixteen to eighteen hard-surface tennis courts, a three-hole permanent golf layout, and fields for varsity baseball, soccer, lacrosse, and softball.

ENROLLMENT 13,049

52% Male 48% Female
46% Full-time 54% Part-time

ADMISSIONS CRITERIA

The College operates on a rolling admissions basis for most programs. The credentials of each candidate are reviewed for acceptable grades in all academic courses. Admission varies according to curriculum — depending, to a degree, on the ratio of applicants to spaces available. Candidates are encouraged, therefore, to submit applications as early as possible in their senior year.

All Dental Hygiene, Nursing, and Medical Laboratory Technology applications submitted by December 15 will receive equal consideration.

Successful candidates must possess a high school diploma or its equivalent. Teacher and/or counselor recommendations and extracurricular activities may be considered but are not required. Personal interviews will not be required unless deemed necessary in specific instances.

The results of the SAT or ACT may be submitted if desired, but are not requirements.

Admission to Farmingdale is by curriculum, some of which are highly competitive. Accordingly, some applicants may be accepted into certain programs while (because of more rigid enrollment quotas) other applicants with the same general characteristics may not be admitted into certain other programs.

Applicants from other colleges are accepted each year to the College's various programs. Credit may be awarded for previous college work completed if it is applicable to an applicant's Farmingdale curriculum, a grade of "C" or better was earned, and the work was completed at an accredited institution. Transfer credits may be sought through a Campus Credit-by-Evaluation procedure for work completed at non-accredited institutions. No more than a year of transfer credit may be awarded, and degree candidates must attend full-time for at least one academic year on the campus.

Other requirements for transfer applicants are as for freshmen.

ACADEMIC PROGRAMS OF STUDY

The College provides opportunities for full-time day degree pursuits or Evening College study in degree and Certificate programs, as well as opportunities for non-degree studies. The headquarters of the Educational Opportunity Center for Long Island is located on the Farmingdale campus with centers in other locations throughout Nassau and Suffolk counties. Programs in high school equivalency preparation, college-adapter, as well as numerous short-term vocational programs are available. Farmingdale's Educational Opportunity Program provides an opportunity for post-secondary liberal arts or career-oriented education for candidates meeting the economic and education criteria as outlined in the SUNY 1979 Application Guidebook.

Graduates are either qualified for direct placement in various technical fields or are able to transfer to four-year colleges. Consult the Admissions Office for requirements for particular programs. (See Curriculum Charts in the back of this publication for complete program offerings.)

ADMISSIONS STAFF (315) 684-7046

Wilbur R. Lamb, Director of Admissions
Frank W. Potter, Associate Director of Admissions
David S. Canfield, Counselor
George T. Silknetter, Counselor

CAMPUS

Located in central New York on Route 20, Morrisville is within 20 minutes of Thruway Exit 34. The 185-acre campus includes 49 buildings plus athletic fields, with extensive additional acreage of farm and woodland for instructional purposes. The campus is situated on the edge of the village of Morrisville, which has a population of 1,000, and is 35 miles from both Syracuse and Utica.

HOUSING

The College's ten dormitories house about 80% of the students, while others choose to live in the village in private housing. Special arrangements include co-educational dormitories and one honors dorm. Meals are available seven days a week. On-campus housing for married students is not available.

CAMPUS ACTIVITIES

An extensive athletic program offers every student an opportunity to participate in intramural or intercollegiate sports. As a member of the NJCAA, the College has won both regional and national titles in recent years. Intercollegiate sports include basketball, baseball, bowling, cross-country, golf, lacrosse rifle marksmanship, skiing, soccer, swimming, tennis, track and field, water polo, and wrestling for men; archery, basketball, field hockey, skiing, softball, track, tennis, and volleyball for women.

Other activities include musical groups, theatres, fraternities and sororities, radio, campus newspaper, and a strong student government. Entertainment is often provided by nationally known performers, as well as student and local performers in a coffee-house atmosphere. Proximity to several other colleges provides additional educational, social, and cultural opportunities.

ENROLLMENT 2,997

59% Male 41% Female
89% Full-time 11% Part-time

Average size of Freshman Class: 1,450

ADMISSIONS CRITERIA

Any of these standardized admissions tests are accepted: SAT, ACT, or PSAT. Applicants are accepted on a rolling admission basis using high school average, course work, and test scores as major criteria. However, all applications for Animal Husbandry-Horses and Associate degree Nursing which are processed before December 15 receive equal consideration. A policy of Selective Admission is practiced for all programs. Since **students are accepted to their intended major,** admissions requirements (in terms of high school preparation) vary. Applicants are encouraged to check the college catalog to be assured that they have the necessary high school preparation, especially in mathematics and science.

Special consideration is given to students with a demonstrated interest (such as high school or BOCES courses, extracurricula involvement, employment or volunteer work) in the area to which they are applying.

Meaningful recommendations that indicate an applicant's special talent and/or genuine interest in a technical area are encouraged.

All prospective students are invited to visit the college. A personal interview is not required. Interviews and tours of the campus are arranged by contacting the Office of Admissions.

ACADEMIC PROGRAMS OF STUDY

The major Academic Divisions are: Agriculture, Business, Engineering, Food Service, Health, and Liberal Arts.

The College offers a wide range of curriculum choices leading to the Associate degree. Among these are the following special programs. Individual Studies Program (688) is a unique curriculum which enables students, with the help of an advisor, to design their own program. Food Processing Technology (565) deals with new methods and refinements in processing food, such as freeze-drying and individual flash-freezing. Food technicians are concerned with food quality and nutrition, and increasingly, with the broad field of ecology. Environmental Science (624) is a practical program designed to train students as technicians dealing with water and waste water treatment plants; emphasis is on applied chemistry and applied hydraulics with basic theory. Musical Instrument Technology (580) trains students in the repair of band/orchestra and keyboard instruments. Plastics Technology (616) deals with plastics processing, with support courses in hydraulics, properties of plastics, etc. Wood Technology (618) concentrates on the industrial approach to solid wood products processing and fabrication. One-Plus-One programs guarantee acceptance to a specific curriculum at Morrisville once the student has successfully completed the first year at a participating community college. (See Curriculum Charts in the back of this publication for complete program offerings.)

Adirondack Community College
Glens Falls, NY 12801

ADMISSIONS STAFF **(518) 793-4491**
James L. Clugstone, Dean of Students

CAMPUS
The campus of seven red brick buildings is situated on 141 acres just north of Glens Falls. The Adirondack mountains can be seen in the distance and Lake George is nearby.

HOUSING
Since the College is intended primarily to serve commuting students, it does not operate dormitories. However, a current list of available rooms in private homes in the area is maintained for students whose permanent residence is at a distance which prohibits commuting. The College does not inspect, supervise, or recommend student housing facilities.

CAMPUS ACTIVITIES
Student life outside the classroom is full and varied, with an active program of social, cultural, and educational events. Twenty-two student organizations and twelve athletic groups function under the sponsorship of Student Government.

ENROLLMENT **2,037**

TUITION
NYS Residents:
$325 per semester (12 credits or more)
$ 22 per credit hour
Non-NYS Residents:
$650 per semester
$ 44 per credit hour

ADMISSIONS CRITERIA
The College has open admission, and all students who apply are admitted as long as space permits. Generally, high school graduation is expected, although admission without high school graduation is possible. A student still in high school may also attend, with special permission for Early Admission. All applicants are notified of admission soon after we receive the application. Students are admitted until August 10, although there is a late-application fee of $25 after May 1. Nursing applicants *should* apply in October. Academic credit or advanced placement may be granted for successful completion, equivalent to a "C" or better, on various standardized examinations. Contact the Admissions Office for details. Service personnel or veterans may earn credit for successful completion of Course Achievement Tests and General Education Development – College-Level Examinations. No more than 34 semester hours of credits will be accepted for transfer. In the acceptance of transfer credit the College makes every effort to benefit the student.

Prospective applicants should consult the Adirondack Community College "Bulletin" for specific high school course requirements for some programs.

ACADEMIC PROGRAMS OF STUDY
Adirondack Community College offers a wide range of two-year Associate degree programs and several one-year Certificate career programs. (See Curriculum Charts in the back of this publication for complete program offerings.)

55% Full-time 45% Female

TUITION
NYS Residents:
$350 per semester
$ 27 per credit hour

Non-NYS Residents:
$700 per semester
$ 54 per credit hour

ADMISSIONS CRITERIA
A high school or State Equivalency Diploma is recommended for entrance to all curriculum. Consult the Broome Community College catalog for specific curriculum prerequisites. No entrance test is required, but SAT or ACT scores should be forwarded if available. Broome Community College gives priority for admissions to Broome County residents who will either graduate from high school this academic year or are veterans returning from active duty. This priority is in effect until March 1. To qualify, all Broome County residents must complete the admissions procedure before that date. After March 1, decisions will be rendered on completed applications regardless of place of residence. This includes transfer, readmission, or Internal Petition Requests for the Freshman year.

Transfer students are welcomed. Advance credit to Broome will be awarded by the Academic Department to which a student transfers. Normally a "C" or better is required for advance credit.

Cayuga County Community College
Franklin Street
Auburn, NY 13021

ADMISSIONS STAFF **(315) 253-7345 Extension 30**

Edward M. Gailor, Director of Admissions
Joni White, Admissions Assistant

CAMPUS
Cayuga County Community College is located between Routes 5 & 20 on the eastern border of Auburn, New York in the heart of the Finger Lakes region. Three large lakes (Cayuga, Owasco, and Skaneateles) are within ten miles of Auburn. Four buildings comprise the twelve-acre site: The Main Building (1959), the Library Building (1968), the Technology Building (1970), and the Bookstore (1971).

HOUSING
The College maintains an approved off-campus housing list. Since the College is located in a residential area, much of the housing is within walking distance.

CAMPUS ACTIVITIES:
Co-curricular activities are many and varied. Major concerts, special weekends, over 20 clubs, a College Coffee House, evening movies, and lecture series, are regular events on campus. A varied intercollegiate and intramural athletic program is available for men and women.

ENROLLMENT 2,829
47% Male 53% Female

TUITION
NYS Residents:
$335 per semester (12 credits or more)
$ 22 per credit hour

Non-NYS Residents:
$670 per semester
$ 44 per credit hour

ADMISSIONS CRITERIA
The College has a full-opportunity policy. Students are accepted from outside the sponsoring district on a space available basis. A high school diploma or the General Equivalency Diploma is normally required for full-time enrollment (12 semester hours or more).

The special, free application for admissions is available through the Cayuga Admissions Office. **Acceptance is made into the College,** not into a particular program. Following acceptance, a personal interview is required of each student for pre-registration at which time the number and kind of subjects are determined for the first semester. Either the ACT or SAT should be taken for purposes of placement into the proper level of Math and English.

Students are accepted for the Fall and Spring semesters each year on a rolling admissions plan. Transfer credits from other colleges may be used toward graduation.

Since the RN Nursing Program is limited in the number of students we accept, students should apply early in their senior year to receive full consideration.

ACADEMIC PROGRAMS OF STUDY
Two-year Associate degree programs are available to prepare for continuation in an upper-division college or for entrance into industry or business. One-year and two-year Certificate programs are available in the Day Division and through the plan of Continuing Education. The Evening Division offers a wide range of courses in both semesters plus a summer session. (See Curriculum Charts in the back of this publication for complete program offerings.)

or 943-6730, Extension 27
Bernardine J. LaMantia, Director of Admissions
Margaret Kelly, Assistant to the Director
of Admisssions

CAMPUS
Columbia-Greene Community College is located on Route 23, about 3 miles east of Thruway Exit 21 and 30 miles South of Albany. Opened in 1974, a single building provides all the basic facilities for the College's programs including: classrooms; a 28,000 volume library; gymnasium; fully-equipped biology, physics and chemistry laboratories; a language lab; a developmental skills lab; a graphics room; and student lounges. There are eight tennis courts, two handball

courts, a basketball court, baseball field, and facilities for soccer, golf, and archery.

HOUSING

Columbia-Greene does not provide housing facilities. However, as a service to students, the Admissions Office maintains a Housing Guide which features a regularly updated listing of available accommodations in the area. While the College offers the Guide to any student interested in finding off-campus housing in the two-county area, all living arrangements are the responsibility of the student and his or her parents.

CAMPUS ACTIVITIES

Participation in the various social, cultural, and recreational activities is strongly encouraged at Columbia-Greene, as active involvement is a vital part of the total college experience. The social aspect of the activities program includes mixers, films and concerts; the cultural aspect includes theatrical productions, symposiums, exhibits, guest speakers, and an arts festival. In athletics, there are championship varsity teams in basketball, baseball, softball, cross-country, soccer, and volleyball. There are approximately 15 student clubs and organizations on campus which take an active role in both college and community projects.

TUITION

NYS Residents:

$348 per semester (12 credits or more)
$ 25 per credit hour

Non-NYS Residents

$696 per semester
$ 50 per credit hour

ADMISSIONS CRITERIA

Columbia-Greene Community College is an open admission campus and, therefore, generally grants admission to everyone having a high school diploma or a NYS General Equivalency Diploma. Acceptance to a particular program may depend on appropriate academic preparation. Prospective applicants should consult the Columbia-Greene Community College catalog or contact the Admissions Office for information about specific programs.

ACADEMIC PROGRAMS OF STUDY

The College offers a range of Associate degree programs in Liberal Arts and Sciences. A Dual-Enrollment program with the College of Environmental Science and Forestry (ESF) offers our qualified graduates guaranteed transfer and full junior year standing in 22 baccalaureate programs at the Syracuse-based institution. Columbia-Greene is one of only four community colleges across the state offering such an extensive agreement with ESF. The College also offers Associate degree programs in Human Services, Criminal Justice, and a variety of business and secretarial fields. One-year Certificates are offered in the Clerk-Typist, Secretarial Studies, and Accounting programs. (See Curriculum Charts in the back of this publication for complete program offerings.)

Community College of the Finger Lakes
Lincoln Hills Road
Canandaigua, NY 14424

ADMISSIONS STAFF **(716) 394-3500**
Extensions 259,261,262
John M. Meuser, Director of Admissions

CAMPUS
Community College of the Finger Lakes, completed in Fall 1975, is situated on a 235-acre site overlooking Canandaigua Lake. Just south of Routes 5 & 20, and one mile east of Canandaigua, the campus is eight miles south of Thruway Exits 43 and 44.

HOUSING
A list of off-campus housing possibilities is available upon request through the Dean of Students' Office. Possibly the best time to find housing for the Fall semester is during the Summer. While there is always sufficient housing, some could be beyond walking distance of the campus.

CAMPUS ACTIVITIES
Students may join approximately 30 different clubs and organizations. Athletics, student government, newspaper, theatre, musical groups, curricular clubs, and fraternity organizations are a few of the more popular activities. A well-rounded activities program includes concerts, trips, dances, speakers, films, etc.

CAMPUS

Corning Community College is located on Spencer Hill, two miles south of the city of Corning. Access to the College is from Route 17 at Denison Parkway and Chemung Street. A modern seven-building campus is situated on approximately 400 acres.

HOUSING

No housing is available on campus. Students wishing to live in the city of Corning can find assistance in locating accommodations through the Housing Office on campus. The College does not inspect or supervise off-campus housing.

CAMPUS ACTIVITIES

Students participate in a variety of clubs and special interest groups on campus including a drama club, athletics and intramurals, newspaper, radio station, scuba, outing and ski clubs, Vets Club, a Black Student Union, and student government, to name a few. Social activities are sponsored by the various clubs and organizations as well as by Inter-Club Council and the Activities & Programming Committee. The majority of student activities take place in the Commons – the student activities building – which also houses game rooms, cafeteria and snack bar, lounges, offices for major student groups, and the office of the Director of Activities.

$ 60 per credit hour

ADMISSIONS CRITERIA

Corning Community College operates under open admissions. Applicants from a three-county service area (Steuben, Chemung, and Schuyler counties) are guaranteed admission to the College if applications are received by deadline dates. Admission to specific programs is on a space available basis, with the exception of Nursing. (Applicants to Nursing are encouraged to apply early – usually space does not permit acceptance of out-of-area students in this program.)

Dutchess Community College
Pendell Road
Poughkeepsie, NY 12601

ADMISSIONS STAFF (914) 471-4500 Extension 292

Dennis Dempster, Director of Admissions and Registrar
Alexander Cutonilli, Associate Director of Admissions
Eileen Best, Admissions Counselor
Herb Bender, Coordinator for Handicapped

CAMPUS

Dutchess Community College is situated on a 130-acre hill-top campus northeast of the City of Poughkeepsie. Its six major academic buildings house all day-time classes and laboratories. A number of courses are offered in the evening at off-campus sites in Beacon, Pawling, and Carmel (Putnam County) for the convenience of people living in these areas. Among seven other campus buildings are a Student Center, the Falcon Gymnasium, the Library, and the Taconic Technology Buildings.

HOUSING

While Dutchess has no on-campus dormitory facilities, out-of-county students may live in dormitories at neighboring Marist College. The Housing Coordinator supplies information on this possibility, as well as current openings in apartments and private homes. The College maintains six parking areas providing over 1,700 spaces for commuters.

CAMPUS ACTIVITIES

The Student Senate charters and financially supports approximately 30 campus clubs and organizations which are co-curricular, cultural, athletic, or social in their orientation. The College has developed a well-balanced program of varsity athletics for both men and women, and schedules intercollegiate contests in cross country, soccer, tennis, golf, basketball, volleyball, and softball. An extensive program of intramural sports provides students with opportunities to participate in a variety of seasonal athletics.

ENROLLMENT 5,975

47% Male 53% Female
50% Full-time 50% Part-time

Average size of Freshman Class: 1,788

TUITION

NYS Residents:
$350 per semester (12 credits or more)
$ 24 per credit hour

Non-NYS Residents:
$700 per semester
$ 48 per credit hour

ADMISSIONS CRITERIA

Dutchess operates under open admissions within the guidelines of a full opportunity college. Except for several high-demand programs (in which applicants from Dutchess County receive first consideration), all programs are filled on a rolling admission basis. Applicants must provide evidence of high school graduation or possess a New York State General Equivalency Diploma.

Although Dutchess **strongly** recommends that students take the SAT, the results are used essentially for academic counseling and do not restrict admission.

A special eight-week summer program, the Summer College Admission Preparatory Program (SCAPP), is designed to strengthen the basic skills of educationally disadvantaged students. A similar program, College Admission Preparatory Program (CAPP), is available during the Fall and Spring semesters.

Early application is recommended. Admission decisions are begun in early December although applications are processed throughout the Summer until all programs are filled. If prospective students intend to complete a program within two years, they should consult the College Catalogue to determine specific course requirements – especialy for programs with mathematics.

ACADEMIC PROGRAMS OF STUDY

Dutchess awards the Associate degree to graduates of its eight transfer programs and twenty-one career programs. A Certificate of Completion is awarded to candidates who fulfill requirements in one-year programs of Certified Laboratory Technology and Mechanical Drafting. Transfer agreements are maintained with many four-year colleges, the largest number with private and public engineering schools. Dutchess has a well-equipped computer science laboratory used extensively by the Data Processing programs. The College recently opened a Dental Laboratory Technology Program, one of only four similar programs east of the Mississippi River. (Laboratory facilities in this program have been adjusted to accommodate wheelchair students.) The Orthodontics curriculum is unique on the entire eastern seaboard. (See Curriculum Charts in the back of this publication for complete program offerings.)

CAMPUS
Serving the campuses of Erie Community College are three centrally located learning resource centers housing collections of print and audio visual materials. The resource centers vary in magnitude, with a combined seating space for about 1,600 students. There are also facilities for the following: group and individual study, seminar and typing rooms, tutoring and special education programs, listening stations, audio visual centers, exhibit areas, lounges, offices, and technical services.

HOUSING
Not available on campus. Interested applicants should contact the ECC Central Office of Admissions for further information regarding off-campus housing.

CAMPUS ACTIVITIES
The Activities Office, through Student Association and activity fees, provides a wide variety of events designed to educate students to appreciate all types of extra-curricular activity.

A full spectrum of events, ranging from a year-long film series to major college weekends, are presented. These events, in conjunction with activities sponsored by Greek organizations and clubs, provide studetns and faculty with activity throughout the year.

All events are registered in the Activities Office on each campus, and a calendar of events is published by the Activities Office.

ADMISSIONS CRITERIA

A candidate for admission to a regular two-year program must be a high school graduate or have satisfactorily completed the G.E.D. and have a good high school background in mathematics and science. Candidates must also meet the prerequisite requirements of the curriculum to which they seek admission. Satisfactory achievement on such standardized tests as ACT/SAT, ITED, PSAT, SCAT, etc. is recommended. In addition, a personal interview may be required and scheduled. The College reserves the right to act as sole judge of the acceptability of an applicant for admission to a course of study. Erie Community College offers full-opportunity admission.

Accepted applicants must pay an admission deposit of $50 as a token of intent to register. This fee is refundable up to May 1 for the school year beginning in the Fall, and is credited toward the Fall semester tuition. Requests for refunds must be presented in writing.

Tuition payment requirements will be communicated to the student from the Business Office.

ACADEMIC PROGRAMS

The College is divided into four academic areas or divisions. They are: Allied Health, Business and Public Service, Liberal Arts, and Technology. (See Curriculum Charts in the back of this publication for complete program offerings.)

Gerald J. Fabiano, Associate
Alton R. McLohon, Associate

CAMPUS

Fulton-Montgomery Community College is situated centrally between Johnstown, Gloversville and Amsterdam, in the Mohawk Valley, at the foothills of the Adirondack Mountains. The campus is located on Route 67, about ten miles north of Thruway Exits 27 and 28, and is approximately 40 miles west of Albany. This location offers a unique variety of cultural, historical, and recreational activities.

In addition to the outdoor athletic fields, the 194-acre campus has as its focus five contemporary buildings including the College Union, the Educational Resources Center (47,000 volumes, 400 periodical titles), and the Physical Education Center (including swimming pool).

HOUSING

While the College may not assume responsibility for off-campus living accommodations and does not maintain on-campus residential facilities, a spirit of cooperation does exist between the College and property owners in the surrounding communities. This cooperation has resulted in a list of accommodations available to students through the Association of Property Owners, which has a direct liaison with the College Office of Student Affairs.

CAMPUS ACTIVITIES

Students are encouraged to participate in campus extra-curricular activities which offer valuable experiences and add to the life of the College.

Examples of the many extra-curricular organizations are: Student Government Association, Folk Club, Drama Guild, Outing Club, Vets Club, Ski Club, Radio Club, Literary Guild, Student Nurses Association, Newspaper, Yearbook, Evening Students Club, Criminal Justice Club, and Phi Theta Kappa.

Intercollegiate teams compete in a variety of varsity sports through the National Junior College Athletic Association. Men's teams include soccer, basketball, swimming, bowling, skiing, and golf. Women's intercollegiate teams include softball, basketball, and volleyball. Intramural teams for men and women provide students with a variety of opportunities for athletic participation. Successful teams and individual team members have represented the College in national contests.

TUITION

NYS Residents:

$375 per semester (12 credits or more)
$ 31 per credit hour

Non-NYS Residents:

$750 per semester
$ 62 per credit hour

ADMISSIONS CRITERIA

The College has open admission and does not require ACT or SAT scores. High school seniors are tentatively accepted pending completion of their graduation requirements. Several curriculum have prerequisites which must be met – please consult college catalogue.

Any student not possessing a high school diploma or the equivalent may obtain an equivalency diploma without examination by successfully completing 24 semester hours of college courses toward a certificate or a degree.

For admission to the Nursing program, the student's record must show successful completion of a course in high school biology or the equivalent; algebra and chemistry, although not required, are desirable.

Because of the highly competitive nature of admission to nursing programs, applicants are now presenting high class average and rank, high standardized test scores (SAT or ACT), and completed college-level coursework.

Prospective applicants should consult the college catalog or contact the Admissions Office for information about specific programs.

ACADEMIC PROGRAMS OF STUDY

The comprehensive nature of the curricular offerings at Fulton-Montgomery, coupled with a strong faculty commitment, create a dynamic and exciting atmosphere for learning. (See Curriculum Charts in the back of this publication for complete program offerings.)

Batavia, NY 14020

ADMISSIONS STAFF **(716) 343-0055 Extension 215**

Malcolm T. Wormley, Director of Admissions
Deborah F. Bridge, Assistant Director of Admissions

CAMPUS

The Genesee Community College campus is located northeast of Batavia near New York State Thruway Exit 48 and Routes 5 and 33.

The College buildings are combined in an integrated mall which includes a gymnasium; swimming pool; modelmaking shop; T.V., film, and photography studio; 57 classrooms and laboratories; and art and music rooms.

The Learning Resources Center, comprised of the Alfred C. O'Connell Library and media and duplicating services, provides extensive support for the educational programs of the College.

HOUSING

No college residence halls are available. Off-campus housing information is available from the Student Activities Office. While public transportation is available between Batavia and the college campus, most students use their own cars.

CAMPUS ACTIVITIES

The Student Government Association coordinates over 38 clubs and organizations including: special interest organizations, intercollegiate and intramural athletics, concerts, films, and other specialized programs. Please consult the college catalog for additional information on student activities.

TUITION

NYS Residents:
$350 per semester (12 credits or more)
$ 25 per credit hour

Non-NYS Residents:
$700 per semester
$ 50 per credit hour

ADMISSIONS CRITERIA

Acceptance to the College is based on open admissions. A student's acceptance into a specific program will be based on high school preparation as it relates to that program.

The ACT is required for placement purposes for all full-time applicants under 21 years of age.

Admission to the Nursing program is selective; applicants from Genesee County are given preference. Acceptance is based on high school average, class rank, and ACT scores. Preference is given to applicants who have passed high school biology or chemistry and elementary algebra.

To be considered for Fall 1979, Nursing applicants **must** take the ACT on or before the December 9, 1978 national test date.

ACADEMIC PROGRAMS OF STUDY

Genesee Community College offers Associate degree programs in both career and transfer areas, and is the only college in New York State to offer an A.A.S. degree in Modelmaking.

The program in Communications and Media Arts (A.S.) is designed to prepare students for transfer to a baccalaureate program in communications or to specialized programs in broadcasting, journalism, or the visual and graphic arts.

Business areas offered include Accounting, Data Processing, Marketing, Retail Management, Secretarial Science, and Travel & Tourism.

New A.A.S. degree programs beginning in the Fall 1978 semester are: Commercial Art, Institutional Management, Journalism Technology, and Medical Secretary. (See Curriculum Charts in the back of this publication for complete program offerings.)

Herkimer County Community College
Reservoir Road
Herkimer, NY 13350

ADMISSIONS STAFF (315) 866-0300
John H. Thayer, Director of Admissions
Barbara Bouchard, Admissions Assistant

CAMPUS
The campus consists of five buildings: a Classroom-Administrations Building, a Classroom-Laboratory Building, a Library, a College Center, and a Physical Education Building. It is located on a 200-acre site in the northwest corner of the Village of Herkimer, and includes an athletic field complex with soccer fields, all weather track and tennis courts, and a 50-acre nature center. The Village of Herkimer has a population of about 11,500 and is located directly off Exit 30 of the New York State Thruway. The City of Utica is approximately 15 miles west of the campus.

HOUSING
Modern, privately owned student apartment buildings immediately adjacent to the campus are now available for approximately 140 students. Other apartments and private accommodations exist in or near the Village of Herkimer and provide a more than adequate number of spaces for students from outside the immediate area.

The College produces an updated housing list and will assist the student in securing housing.

CAMPUS ACTIVITIES
Campus activities include many social and cultural events such as: College weekends, fine arts programs, concerts, dances, drama, intramurals, and programs sponsored by the 20 clubs and organizations on campus. WHCR functions as the campus closed-circuit radio station. Organizations include: Archeology Club, Behavioral Sciences Club, Cheerleading, Chess Club, Fine Arts Committee, Musical Activities-Lyric Theater, the College newspaper – *THE PACESETTER*, Phi Beta Lambda and Phi Theta Kappa National Honorary Societies, the Society of Dionysus, and Swimming Club.

HCCC offers athletic programs for both men and women. The varisty intercollegiate teams consist of wrestling, basketball, bowling, tennis, golf, lacrosse, volleyball, and track and field.

Women's sports include field hockey, tennis, volleyball, basketball, badminton and softball.

ADMISSIONS CRITERIA
Herkimer County Community College operates as a full opportunity college with a policy of open admissions. Program placement and admissions counseling are based on the multiple factors of high school achievement, objective test data, interest, maturity, and motivation. The College reserves the right to determine whether the applicant will be admitted to full-time matriculated status or to part-time non-matriculated status. Admissions requirements include graduation from high school or the equivalent. Interviews are encouraged and, in some cases, may be required. The College operates on rolling admissions. Candidates must have taken the SAT or ACT (the ACT is preferred). A medical report is required.

ACADEMIC PROGRAMS OF STUDY
Herkimer offers a range of programs in both career and transfer areas. Some of the most popular programs are: Forestry and Environmental Science (dual-enrollment with College of Environmental Science and Forestry at Syracuse), Paralegal Assistant, Radio and Television Broadcasting, and Travel and Tourism. (See Curriculum Charts in the back of this publication for complete program offerings.)

CAMPUS
The 125-acre HVCC campus, located on Route 4 on the Troy-East Greenbush line, is easily accessible from both the Northway and New York State Thruway. The eleven buildings contain well-equipped classrooms, laboratories, and campus activities centers. The Library and the Campus Center hold key positions on the campus. In keeping with their important influence on total student life and activities, the Library provides elaborate multi-media facilities, while the Campus Center houses cafeterias, a theatre, bookstore, and study areas.

HOUSING
The College endorses the philosophy that the community college is essentially a commuting college, and so does not have dormitories. About 15% of its students, however, do come from beyond the Capital District. These students are provided with a Housing Guide to privately owned homes or apartments in or near the city. Students make individual arrangements with landlords.

CAMPUS ACTIVITIES
All student activities are under the sponsorship of the Student Senate and the supervision of the Student Activities Office. Participation is encouraged in the following: clubs and organizations in over 40 areas, including various academic departments and divisions; Black Student Alliance; the Valley Players; the Viking Band; the Student Senate; and cheerleading, convocations, social events, student publications, and religious fellowship organizations.

ADMISSIONS CRITERIA
Most programs require at least one unit of high school math with programs such as Engineering Science and Business Administration requiring three academic-level courses (algebra, geometry, trigonometry, etc.). Some programs also require a background in one or more courses of laboratory sciences. For specific requirements check the HVCC College Catalog in your high school guidance office or contact the HVCC Admissions Office.

ACADEMIC PROGRAMS OF STUDY
Hudson Valley is a comprehensive community college with a variety of programs which meet the needs of a wide range of human capacities, interests, and aptitudes. Transfer or "University-parallel" curriculum prepare students to continue their studies at a four-year college. Occupationally-oriented curriculum provide increasing numbers of competent personnel for business and commerce, health agencies, and technical-scientific areas of industry. Continuing Education, in evening and Saturday courses, permits

Hudson Valley . . .

employed adults to upgrade their skills or enter extended programs for degrees. (See Curriculum Charts in the back of this publication for complete program offerings.)

CAMPUS

Jamestown Community College is located one block north of Route 394 (East 2nd Street), two miles south of Route 17 (Southern Tier Expressway), and twenty-five miles south of the New York State Thruway Exit 59. On the 197-acre campus there are six buildings: Collegiate Center Building, Arts & Sciences Center, Library-Learning Center, Fine Arts Center, The Forum Building, and the Physical Education Complex. College Stadium and the College Park & Biological Research Station are also on the campus.

HOUSING

Off-campus rooms and apartments are available from private landlords. The College does not inspect, approve, or disapprove these accommodations. A card file of information is available in the Counseling Center. Public transportation is excellent; students may have cars.

CAMPUS ACTIVITIES

Students may join any of approximately 30 College-sponsored clubs and organizations in such areas as fine arts, student government, publications, athletics, music, religious groups, and recreational and social events. Everyone is encouraged to participate in all the activities at the College.

ADMISSIONS CRITERIA

Jamestown Community College has an open admission policy. Persons 18 years of age or over showing a sincere desire to pursue higher education will be granted admission without a high school diploma. Preference in all programs is given to residents of Chautauqua and Cattaraugus Counties. Nursing applicants should have chemistry; for Engineering Technology applicants high school algebra is strongly recommended; Engineering Science applicants should have four years of mathematics, and chemistry and

physics are strongly recommended. Students who have experienced academic difficulty in the past but desire to continue their education in college may be asked to participate in the Developmental Studies Program. Prospective applicants should contact the Admissions Office for information about specific programs. Jamestown operates on rolling admissions, with applications processed as received.

ACADEMIC PROGRAMS OF STUDY

Jamestown Community College offers a full range of Associate degree programs in the liberal arts and sciences and a vast array of two year career programs. (See Curriculum Charts in the back of this publication for complete program offerings.)

Jefferson Community College
Outer Coffeen Street
Watertown, NY 13601

ADMISSIONS STAFF (315) 782-5250

John G. Phillips, Director of Admissions
Roseanne Weir, Admissions Counselor

CAMPUS

Jefferson Community College is located near Exit 46 of Interstate Route 81 at the edge of the city of Watertown. The five campus buildings, built since 1965, are located on a 72-acre site and include the Samuel Guthrie Science and Engineering Building, the John Foster Dulles Liberal Arts and Business Building, the Melvil Dewey Library, the College Center, and the Robert Lansing Administration Building.

HOUSING

While housing is not available on campus, the College maintains a list of available off-campus rooms and apartments.

CAMPUS ACTIVITIES

Students may join any of a number of College sponsored clubs and organizations in such areas as cultural affairs, student government, publications, athletics, and recreation and social events. Groups of students who wish to sponsor extracurricular activities or to form organizations for extra curricular purposes may do so with the assistance of the Director of Student Activities.

Students are invited to serve as members of the following College committees: the Board of Trustees, the Academic Policy Committee, the Athletic Board of Control, the Cultural Affairs Committee, the Curriculum Committee, the Library Committee, the Student Activities Board of Control, the Admissions Committee, and the Housing Committee.

TUITION

NYS Residents:
$730 per semester (12 credit hours or more)
$ 31 per credit hour

Non-NYS Residents:
$1460 per semester
$ 62 per credit hour

ADMISSIONS CRITERIA
An open admissions policy guarantees admission to all Jefferson County residents who have graduated from high school with the last graduating class or who are veterans of the Armed Forces. In most cases, other applicants are also accepted to the College. Curriculum placement depends upon the applicant's academic background (see college catalog).

ACADEMIC PROGRAMS OF STUDY
A wide range of Associate degree and Certificate programs are offered in liberal arts, science and engineering, health fields, and business. Jefferson's Associate in Occupational Studies (A.O.S.) degree program in Hospitality and Tourism is unique. Because of the "Retailing Mix" found in the tourism field, the program includes courses in Hotel-Motel-Restraurant Management, as well as Retail Merchandising. Other strong programs include Engineering Science, Criminal Justice, and Science Laboratory Technology. (See Curriculum Charts in the back of this publication for complete program offerings.)

CAMPUS
Mohawk Valley Community College is located on 80 acres in the southern section of Utica, five miles from Exit 31 of the New York State Thruway. A new addition to the gymnasium has an olympic-size swimming pool; four racquet ball courts; classrooms; and general purpose facilities for wrestling, indoor golf, physical conditioning, etc.

HOUSING
On-campus housing is available for 312 students. There are four dormitories, of which two are co-ed; students can select the housing type desired. Assistance is available in locating off-campus housing at the many homes and apartments which are within a short distance of the campus.

CAMPUS ACTIVITIES
Approximately 50 different activities are open to students, ranging from student government to varsity athletics. Students are invited to participate in their areas of interest. One day orientations are scheduled in the last week of July and the first week of August for incoming freshmen.

Rochester, NY 14623

ADMISSIONS STAFF **(716) 442-6400**
Anthony J. Felicetti, Director of Admissions
David Borden, Associate Director of Admissions
Marcia G. Faulkner, Counselor
Patricia R. Marland, Counselor
Deborah A. Urquhart, Counselor

CAMPUS
The Monroe Community College campus is located on 314 acres in the Town of Brighton, three and one-half miles from downtown Rochester. Built in 1968, the campus features 11 inter-connected buildings in modern architectural design. The College is close to airport, bus, rail, and major highways.

HOUSING
While there is no campus housing, the Student Activities Office maintains a list of area housing accommodations.

CAMPUS ACTIVITIES
Opportunities for participation in a diversified program of co-curricular activities are offered by the Student Association and Evening Sessions Student Association. Active student clubs and organizations of a special, departmental, honorary, or service nature include: the Amateur Radio Club, Black Students Union, International Club, Monroe Medical Science Club, etc. Publications include the student newspaper and a literary/art magazine. Intramural and intercollegiate teams provide an opportunity for students to participate in soccer, baseball, swimming, tennis, golf, archery, volleyball, etc. Musical and theatrical activities also occur at various times throughout the year.

TUITION
NYS Residents:
$375 per semester (12 credits or more)
$ 30 per credit hour
Non-NYS Residents:
$750 per semester
$ 60 per credit hour

ADMISSIONS CRITERIA
The Monroe Community College application forms

may be obtained from the Admissions Office at the College or at area high schools. Applicants for full-time study (12 credit hours or more) should apply through the Admissions Office. Those interested in part-time study should contact the Office for Continuing Education (716/275-9310).

Under the Full Opportunity Program, preference in admission to high demand programs (e.g., Nursing, Dental Hygiene) is given to applicants from Monroe County. Historically, however, the College has been able to accommodate applicants from other areas in most other curriculums. Applicants should make every effort to complete application procedures by March 1 for the Fall term and by December 1 for the Spring term. After those dates the choice of curriculum may be restricted. The College operates on a rolling admission program. The results of such standardized tests as the SAT or the ACT may be submitted, but are not a requirement for admission. (Those planning to transfer to a four-year college should give attention to such examinations where necessary.)

ACADEMIC PROGRAMS OF STUDY

Typically, about 45% of the students enroll in the three transfer curriculum (Liberal Arts, Business Administration, and Engineering Science) and 55% in the twenty-four career curriculum. Fifteen Certificate programs are available for currently employed technicians who wish to upgrade their skills in a planned part-time program. Information about the Certificate programs may be obtained by contacting the Office for Continuing Education. (See Curriculum Charts in the back of this publication for complete offerings.)

Philip J. Kautzman, Admissions Counselor

CAMPUS

The College is located on the historic Mitchell Field Air Force Base near the middle of Long Island's Nassau County. New classrooms, laboratories, and College Library are now being utilized. The College is accessible from all points in Nassau County and can be reached from New York City and points west from the Long Island Expressway and Northern State Parkway via the Meadowbrook Parkway (M-3 Exit). Entrances to the College are on Stewart Avenue, Hemstead Turnpike, and West Coliseum Road. County bus services provide public transportation to the College.

HOUSING

Housing is not available at Nassau Community College.

CAMPUS ACTIVITIES

The Faculty Student Association, through its board of directors, sets and administers policies for the purpose of creating and implementing programs of cultural, social, educational, and recreational value to the college community. It is the responsibility of the students to initiate, develop, and finalize their activities program. A highly diversified selection of special interest clubs and organizations include more than 60

academic, athletic, political, and social groups. The Student Government, through its Student Center Board, supplements and broadens the total College activities program with art exhibits, film programs, concerts, lecture series, special programs, dances, coffee hours, and recreational programs. The Student Publications Board administers the affairs of the three campus publications — a biweekly newspaper, an annual literary magazine, and a yearbook.

Average size of Freshman Class: 6,000

TUITION

NYS Residents:

$365 per semester
$ 29 per credit hour

Non-NYS Residents:

$730 per semester
$ 58 per credit hour

ADMISSIONS CRITERIA

Applicants are urged to select very carefully their intended area of study because they are judged either acceptable or unacceptable according to the admissions criteria for the area of study to which they apply. For information about the requirements for specific programs, please consult "Admissions Requirements" available from the Office of Admissions at the College. **Students are admitted to a specific major.**

All complete applications received by the Office of Admissions on or before December 1 will be given a processing priority over those received at a later date. The specific priority for this group will be determined by a computer-generated random number which will be utilized to set the order in which applications will be processed. Applications received after December 1 will be issued a "secondary" priority based on the date of receipt. All first priority applications will be processed before this "second" priority group.

CAMPUS

Niagara County Community College is situated on 287 acres in Sanborn, New York — a location equidistant from the three principal population centers of Niagara Falls, Lockport, and North Tonawanda. The campus is comprised of eight major

buildings linked by gallery corridors and is designed to meet the physical needs of disabled students.

HOUSING

The College is primarily for commuting students and does not maintain dormitories or supervised housing. A list of off-campus accommodations offered by private owners is maintained at the Office of the Dean of Student Affairs.

CAMPUS ACTIVITIES

Niagara County Community College desires to stimulate total growth and development and, therefore, supports and encourages student-directed extracurricular activities. In addition to intercollegiate competition in basketball, baseball, wrestling, golf, bowling, cross-country, and women's volleyball, basketball, and softball, the College sponsors an extensive program of intramural athletics and seasonal activities for men and women, including co-ed bowling. Student government groups offer experience in democratic processes; student clubs and organizations provide stimulation and outlet for all individual and group interests.

TUITION

NYS Residents:

$355 per semester (12 credits or more)
$ 28 per credit hour

Non-NYS Residents:

$685 per semester
$ 56 per credit hour

ADMISSIONS CRITERIA

Niagara County Community College operates open admission in all programs except Nursing and Drafting. Preference is given to Niagara County residents. A pre-admission conference between the applicant and an admission counselor is desirable but not required. Admission requirements for all curriculum (except General Studies – #986) include high school graduation or its equivalent. Since admission is granted on a rolling basis, applicants benefit by submitting applications early. The College adheres to a deadline date of November 15 for consideration in the Nursing curriculum.

Admission to the Nursing curriculum is restricted to Niagara County residents and requires a high school average of 80 or better, with completion of at least one year of high school algebra and either biology, physics, or chemistry. Final admission for Nursing applicants will be contingent on a favorable medical report evaluation by the Nursing Department.

The Drafting Certificate program requires two years of mechanical drawing (or equivalent work experience) and one year of high school algebra.

The College participates in the College Proficiency Examination Program, Regents External Degree Examination Program, College-Level Examination Program, and Advanced Placement Program. Information regarding these programs is available from the Office of Admissions and Records.

Transfer students are directed to follow the same application procedure as Freshmen applicants; the same requirements must be met. Transfer students must submit an official transcript of previously completed college course work to the Office of Admissions and Records before the application can be considered complete for processing. A maximum of 30 credit hours is transferable to degree/certificate programs.

ACADEMIC PROGRAMS OF STUDY

Niagara County Community College cooperates with Morrisville Agricultural and Technical College, State University College of Environmental Science and Forestry, and Alfred Agricultural and Technical College in offering "one-plus-one" programs in Journalism, Forest Technology, Air Conditioning Technology, and Internal Combustion Engine Technology. Veterans and servicemen are aided in making the transition from military life to student life through an on-campus Coordinator of Veterans Affairs. Counseling, academic advisement, processing of VA and military claims, and related services, are provided through that office. The College offers a tutorial program on an individual basis to aid students with course work. Credit may be given for Experiential Learning. (See Curriculum Charts in the back of this publication for complete program offerings.)

North County Community College
20 Winona Avenue
Saranac Lake, NY 12983

ADMISSIONS STAFF **(518) 891-2915**
Richard Maloney, Director of Admissions
& Financial Aid

CAMPUS
The College is located on 94 acres within the Village of Saranac Lake, on the borderline between Essex and Franklin Counties. Situated as it is in the heart of the Adirondack Mountains, site of the 1980 Winter Olympics, the area affords the outgoing student ready access to mountains and lakes for year-round enjoyment. North Country Community College presently operates in temporary quarters; however, a new building program has been approved and construction began in the Spring of 1977, with occupancy scheduled for the 1978 Fall semester.

HOUSING
While the College is not able to provide college-sponsored dormitories as such, student housing information and lists are available through the Student Housing Committee under the direction of the Office of Dean of Students. All of the facilities are privately owned. Some are operated as dormitories, housing only our students, while other facilities are in private homes and apartments.

CAMPUS ACTIVITIES
Student clubs and organizations are formed under the direction of the Student Government Association. Such clubs include the Outing Club, Rifle Club, Ski Club, PEP Club, etc.

The North Country Lyceum consists of a series of guest artists, lecturers, and performers scheduled throughout the year for the benefit of students. In addition to a wide range of vocal and instrumental programs, full length plays are presented by students under the direction of the drama department.

Art shows of student, area artist, and faculty works are displayed several times a year.

The College's Athletic Association sponsors a program of intercollegiate athletics which includes soccer, hockey, skiing, and lacrosse for men; and field hockey, basketball, skiing, and volleyball for women. In addition, a wide range of intramural sport activities are available.

ENROLLMENT 1,376
36% Male 64% Female
46% Full-time 54% Part-time

TUITION
NYS Residents:
$365 per semester (12 credits or more)
$ 21.50 per credit hour (11 credits or less)

Non-NYS Residents:
$730 per semester
$ 43 per credit hour

ADMISSIONS CRITERIA
Our admissions policy is that any student with a high school or General Equivalency Diploma will be admitted to some program offered by the College.

North Country Community College has its own application for admission and does not charge an application fee. The following items must be submitted to the Admissions Office prior to a student being accepted: a complete four-page application which may be obtained from the Admissions Office at the College; an official copy of the applicant's high school record or General Equivalency Diploma; a recommendation from the applicant's high school counselor. A personal interview is not required, but may be arranged.

Submission of ACT or SAT test scores are

required of all students having just graduated from high school for realistic placement in college-level courses and/or developmental courses for the first semester of study. A full complement of developmental courses are available.

Those applicants who do not meet the basic requirement of holding a high school or general equivalency diploma may be admitted to the College in a special student status as follows: 1) the applicant may apply for a course of study as a part-time non-matriculated student as long as he is taking steps to meet high school degree or equivalency requirements while enrolled at North Country Community College; 2) if the applicant does not hold a high school equivalency diploma and has been out of school for at least one year, he may apply for a course of study as either a full-time or part-time matriculated student. Under this special program, if a student successfully completes 24 college-level credits, he may apply, through the College, to the State Education Department for his high school equivalency diploma and would be entitled to receive the diploma without taking the equivalency diploma examination.

Students who wish to receive credit for courses from other postsecondary institutions must have earned at least a passing grade. An official copy of the transcripts from all postsecondary schools which the applicant has attended must be submitted to the Admissions Office prior to a student being accepted. A minimum of 30 credits must be earned through North Country Community College in order to be eligible for an Associate degree.

ACADEMIC PROGRAMS OF STUDY

An interdisciplinary Studies Program is available to assist students with basic skills in writing, reading, and listening, as well as the more personal aspects of developing self-awareness, identifying career goals, and exploring human potential. This program is a combined effort on the part of the counseling and teaching staff to improve a student's chance of success in both the academic and personal living areas.

January intersession, called "Winterim", is conducted between the Fall and Spring semesters. Special enrichment courses are offered, including work-study experiences and trips abroad.

In addition to its specialized curricula in the allied health services, the College offers an individual studies program for students wishing to concentrate in such areas as art or music. (See Curriculum Charts in the back of this publication for complete program offerings.)

Onondaga Community College
Syracuse, NY 13215

ADMISSIONS STAFF (315) 469-7741

Paul L. Brown, Director of Admissions
Joseph Insel, Associate Director
Linda Hicks, Assistant Director

CAMPUS

Onondaga Community College is located in Syracuse, New York on Onondaga Hill. The 181-acre Hill Campus is both picturesque and easily accessible to inner city residents. The new campus is located four miles southwest of the center of Syracuse.

The campus consists of eight buildings including: two academic classroom buildings, a physical education building, an administrative tower, a technical arts/paramedical building, a service and maintenance building, a library, and a student center.

HOUSING

The Colleges does not provide residence facilities. However, the Office of Student Personnel Services maintains an up-to-date list of local apartments and rooms available for rent to students. All arrangements for living quarters are made between the student and the landlord. The College assumes no responsibility and has no authority for student housing.

CAMPUS ACTIVITIES

The Onondaga Community College student is offered numerous opportunities for leadership, experience, and participation in a variety of social, cultural, and recreational activities. All of these enriching programs have as their ultimate goal "the education of the whole man."

All student organizations which are chartered are recognized by the Student Government Association. Participation in one or more clubs is recommended since active extracurricular involvement is considered an integral part of the total college experience.

ENROLLMENT 6,024

48% Male 52% Female
53% Full-time 47% Part-time

TUITION

NYS Residents:

$395 per semester
$ 30 per credit hour

Non-NYS Residents:

$790 per semester
$ 60 per credit hour

ADMISSIONS CRITERIA

Admission to Onondaga Community College is by curriculum and admission to certain curriculum for the Associate degree is often very competitive. Therefore, applicants with certain academic backgrounds may be qualified and accepted for admission to some curriculum while other applicants, possessing the same general characteristics, may not meet the competition in other curriculum because of the enrollment quotas which are established for each curriculum.

The College has an open admissions policy for all developmental programs and for the Educational Opportunity Program candidates who meet the "disadvantaged" criteria for this program.

In recommending a specific program of study to students, counselors should be guided by both the academic background which is required for a specific program and the counselor's own past experience with students applying for admission to the program.

Admission requirements include high school graduation or its equivalent. Personal interviews and/or auditions scheduled by the College are required for several curriculum. Check college catalog for specific curriculum prerequisites, if any.

The College conducts a rolling admissions program and all applications for admission are acted upon as promptly as possible following receipt of all application forms and completion of admission procedures. The admissions decision is determined by the results of the personal conference, a review of the high school transcript, the counselor's recommendation, and satisfactory performance on either the American College Test or the Scholastic Aptitude Test.

CAMPUS

The College is located in Middletown, New York. A newly-completed $18 million expansion program has added five new buildings to the seven existing facilities. They include: a Physical Education Complex, Library, Student Commons Building, Biomedical Arts Technology Building, and Heating Plant.

HOUSING

The College does not supervise housing but does provide an off-campus housing list to accommodate approximately 500 students. (Contact the Student Activities Office for listings.) Rooms generally rent between $17-30 per week.

CAMPUS ACTIVITIES

Student life at Orange is as varied as its curricula. There are 38 clubs and organizations providing social, academic, and athletic challenges for students. Intramural activities play a vital role in the campus life of students.

ENROLLMENT 4,988

TUITION

NYS Residents:

$375 per semester (12 credits or more)
$ 31 per credit hour

Non-NYS Residents:

$750 per semester
$ 61 per credit hour

ADMISSIONS CRITERIA

Orange follows an open-door policy. Students are required to submit an official copy of their high school transcript, the Orange application, and the results of either the SAT or ACT. Since Orange does not participate in the Application Processing Center in Albany, students should apply directly to the College.

Admission to a curriculum is based upon the student's academic background, counselor recommendations, and test scores (SAT or ACT). Student interviews are strongly encouraged. Orange uses a rolling admissions procedure. The College recognizes Advanced Placement (CEEP), CLEP, and College Proficiency. The College also participates in EOP.

Some technical programs, which are six-county regional programs, have additional entrance requirements as follows: Dental Hygiene requires students to take the DHAT's in addition to the SAT's or ACT's; the Physical Therapy Assistant requires successful completion of one year of Regents high school biology or the equivalent; the Occupational Therapy Assistant program requires successful completion (75 or better) of a year of Regents high school biology and English or the equivalent.

Prospective applicants should consult the Orange County Community College catalog or contact the Admissions Office for information about specific programs.

Application deadline (for the Fall semester) is March 1 for the following allied health curricula: Nursing, Dental Hygiene, Physical Therapy Assistant, and Occupational Therapy Assistant. Applications for all other programs are considered throughout the summer. January 8 is the application deadline for admission to all Spring semester programs.

ACADEMIC PROGRAMS OF STUDY

In addition to offering a well-rounded, two-year program in Liberal Arts and Sciences focusing on transferability, the College offers two-year Associate degree programs in Dental Hygiene, Physical Therapy Assistant, and Occupational Therapy Assistant. A Certificate program in Commercial Art has a required cooperative education phase. Cooperative education, which combines college courses with actual work experience, is also part of the Retail Business Management program and is expected to be a part of many more programs in the future.

Also, Orange County Community College now offers Associate degrees in Fire Protection Technology and Industrial Instrumentation Technology. (See Curriculum Charts in the back of this publication for complete program offerings.)

Orange is also a participant in the *Project Ahead* program for veterans.

145 College Road
Suffern, NY 10901

ADMISSIONS STAFF **(914) 356-4650**

Donald L. Lowdermilk, Director of Admissions
Lawrence F. Gurney, Associate Director of Admissions

CAMPUS

The College occupies over 150 acres about 3 miles north of the Airmont Exit of the New York State Thruway. The campus contains buildings of several vintages (including four completed in 1973-74) and athletic fields. Rockland County is a complex of small villages, suburban residences, and a substantial part of Harriman State Park, with the cultural entertainment and sociological characteristics of New York City close at hand.

HOUSING

A descriptive listing of private housing accommodations is available from the Office of the Dean of Students.

CAMPUS ACTIVITIES

Twenty-five clubs, intercollegiate competition in eight sports for men and three for women, intramural tournaments in ten activities, student dramatic productions, student government, a student newspaper, a very extensive series of lectures, cinema and musical events, and many sponsored bus trips to New York City supplement the academic program.

ENROLLMENT **7,943**

TUITION

NYS Residents:
$300 per semester
$ 25 per credit hour

Non-NYS Residents:
$600 per semester
$ 50 per credit hour

ADMISSIONS CRITERIA

The College follows an open admission policy, and all applicants with a high school or equivalency diploma are accepted. Applicants without a high school diploma may be considered for admission if they are at least 17 years of age and have been out of high school for one year or were members of a high school class that has graduated.

The rolling admissions policy results in notification of a decision within a few weeks of the receipt of all application materials. Decisions are based on the high school transcript and statements by the high school staff, and results on either the SAT or the ACT when available. Interviews are sometimes required and are always available.

Applicants are admitted to a full academic program when their high school credentials give sound promise for success on the college level.

Rockland County . . .

For applicants who present credentials that clearly predict difficulty with college programs, there is a non-credit College Skills Center. Satisfactory completion of this program leads to advancement to a college curriculum.

Applicants whose academic past places them between the full College Skills group and the full academic program group are generally assigned to a modified program of reduced credits or limited programs of partial skills work and a small number of college-level subjects.

Transfers with a reasonable record from an accredited college are fully accepted. Others may be assigned to modified or limited programs. Comparable courses are accepted for full credit, dependent on a "C" average for the total of courses accepted. Credit by examination is normally granted with satisfactory scores.

ACADEMIC PROGRAMS OF STUDY

Rockland County Community College offers a full range of Associate degree programs in the Liberal Arts and Sciences, a wide variety of two-year career programs, and several one-year Certificate programs. Students may also plan their academic programs in a number of specifically defined Cluster Colleges or through the extensive International Education program. (See Curriculum Charts in the back of this publication for complete program offerings.)

Schenectady County Community College
Washington Avenue
Schenectady, NY 12305

ADMISSIONS STAFF (518) 346-6211

Louis A. Schultz, Director of Admissions

CAMPUS

The College is situated on a 50-acre campus that overlooks the Mohawk River at the western edge of the City of Schenectady, between Thruway Exits 25 and 26. A major stately building contains modern classrooms, laboratories, and special purpose rooms. Accommodations for informal activities include a large, comfortable community room, a game room, and a snack bar. A campus addition, open in September 1978, includes a library-media center, music building, multi-purpose lecture hall, athletic fields, and parking areas. The City of Schenectady is readily accessible by automobile, plane, and bus.

HOUSING

Off-campus rooms and apartments are available from local landlords, as well as at the nearby YWCA & YMCA. The College does not inspect, approve, or disapprove student housing.

CAMPUS ACTIVITIES

Each academic quarter, a wide variety of cultural programs and social events are planned to complement the academic programs and introduce students to new interests and experiences.

In addition to numerous student clubs and organizations, the College has an active intercollegiate and intramural sports program.

ADMISSIONS CRITERIA

Schenectady County Community College emphasizes both flexibility and opportunity in its full opportunity admissions policy. Because the College accepts not only students of demonstrated ability, but also those of undeveloped talent, anyone who feels that he can profit from college-level instruction is invited to apply for admission. Although Schenectady County residents are given first priority in admission, applications from students who reside in other counties will also be considered favorably. The college operates on rolling admission.

Applicants for a degree program must be high school graduates or hold a High School Equivalency Diploma, and must submit scores received on the ACT or SAT. (These scores do not affect acceptance.)

Candidates for a one-year Certificate will be considered on the basis of school record, work experience, interest, and success in school. High school graduation or the equivalent is not required of Certificate program applicants who are at least eighteen years of age and have been out of school at least one year. Students who wish to complete requirements for a degree after earning a Certificate must present evidence of a high school diploma, or the GED (General Equivalency Diploma) to be graduates.

The College's commitment to the full opportunity program makes it possible to accept all returning veterans and recent high school graduates from Schenectady County. In accordance with College policies, students meeting all other qualifications, may be matriculated in the program of their choice even though they may lack, or may have achieved poorly in, prerequisite high school courses. The College reserves the right, however, to require any incoming student deficient in one or more subjects to take developmental work as deemed necessary. It is possible to rectify areas of weakness at the same time the student is earning credit toward the degree in other subject areas. It must be understood, however, that under these circumstances a student may well take longer than the normal two-year period to complete requirements for an Associate degree.

Transfer applicants are sent a credit evaluation of their previous work with their decision letter. Courses with a grade of "D" will be considered only if the course work was completed at a SUNY campus.

CAMPUS
Suffolk County Community College has three campus locations totaling over 500 acres. The Selden Campus was established in 1959, the Western Campus in 1974, and the Eastern Campus in 1977. The campus settings vary from suburban to rural. Each campus has the traditional liberal arts and business curriculum, with health careers and technical programs essentially restricted to the Selden Campus. A Marine Technology Center, located in Southold, is operated in conjunction with the nearby Eastern Campus.

HOUSING
While on-campus housing is not provided, the Office of the Dean of Students and the Office of Veterans Affairs does maintain a listing of available off-campus rooms and apartments. The College does not assume any responsibility, but offers this service only as a convenience to the students and the community.

CAMPUS ACTIVITIES
As part of the entire learning experience, each campus invites students to participate in the various organizations, theatrical productions, concerts, publications, student government, or one of the 31 active clubs. A yearly College fee, paid by the student, enables the College to present a varied number of cultural and special programs throughout the school year.

$ 46 per credit hour

ADMISSIONS CRITERIA
Suffolk County Community College has a full opportunity program. The ACT is required for all full-time applicants. (This requirement is waived for those who have previously and satisfactorily completed at least 12 college credits.)

Admission is qualified by prerequisite courses. Applicants for Liberal Arts – Science, Math, Social Sciences, Humanities, and Engineering Science must have a strong academic high school background. Liberal Arts – General Studies students are granted full opportunity admission. Nursing and Physical Therapy Assistant applicants must have Regents biology (chemistry is preferrable) and have a high school average of 80 or better. (Please contact College Admissions Office for specific curriculum requirements.)

ACADEMIC PROGRAMS OF STUDY
Strong programs include the health careers, the technologies, the sciences, and business areas. (See Curriculum Charts in the back of this publication for complete program offerings.)

ADMISSIONS STAFF **(914) 434-5750**

Lawrence G. Appel, Director of Admissions
Murray Salzman, Transfer Counselor
Jan Charlon, Counselor
Lewis Krosner, Counselor

CAMPUS

Sullivan County Community College is located in Loch Sheldrake, New York on 405 acres of rolling meadow lands in a rural area whose main industries are the resort and agricultural industries. We are centrally located in New York State – 2 hours from Albany, an hour and 20 minutes from the Binghamton area, and 2 hours from mid-town Manhattan. The campus may be reached by leaving Route 17 at Exit 100 and proceeding east on Route 51 for 3.5 miles.

Each of the buildings on the campus, with the exception of the Field House, is connected to another by enclosed corridors, making it a truly all-weather campus. The Field House contains facilities for basketball, indoor soccer, tennis, volleyball, gymnastics, and handball. The campus also has outdoor playing fields and outdoor laboratories for biological and environmental science programs.

HOUSING

While the College itself does not provide housing, the Director of Housing maintains a registry of off-campus facilities available to the 70-75% of Sullivan's students who are from outside Sullivan County. Supervised and operated independently of the College, two area resort hotels provide room and board as well as transportation to and from the campus. Other independent housing includes garden apartments, motels, mobile homes, etc.

CAMPUS ACTIVITIES

Student life at Sullivan County Community College is as varied as the surroundings and the students that make up our student body.

The College operates programs ranging from the Student Union Board and the Student Government Association to a full intercollegiate and intramural athletic program for both men and women. Other activities include Black Student Union Board, Women's Basketball Club, Improvisation Drama Workshop, Martial Arts Club, Basic Cave Exploring Club, Baseball Club, Lacross Club, Mental Health Club, Gymnastics Club, Bowling Club, Judo Club, Modern Dance Club, R U Mad House Players Theatre Group, Radio Club, Yearbook, Commentator, Escoffier Club, Chess Club, NORML – SCCC. In addition, the College runs a cultural events series in which students participate.

A College-operated on-campus Day Care Center (supervised by professional personnel) permits students who have children of a pre-school age to attend the College.

Sullivan County Community College provides a full-time New York State Employment Office on the campus. The prime responsibility of this employment service is the placement of our students in part-time work during the academic year. Approximately 40% of our students find part-time work in the area's resorts while in attendance at the College.

$ 62 per credit hour

ADMISSIONS CRITERIA

The College operates on an open-admission policy. Under exceptional cases, students who do not have a High School Equivalency Diploma can apply to the College under the 24-Credit-Hour program, whereby credits can be earned and applied to a General Equivalency Diploma.

There are some entrance requirements within specific areas. For more detailed information about the entrance requirements in Liberal Arts (science emphasis) and Commercial Art please contact the Admissions Office or consult the latest Sullivan County Community College catalog. The College operates its admissions program on a rolling basis for both the January and September classes, and students will be notified as quickly as possibly after receipt of the application.

ACADEMIC PROGRAMS OF STUDY

Sullivan offers a full range of academic and career-oriented programs at the Certificate and Associate degree levels. Included in this offering are the two programs that are University-parallel including: Liberal Arts & Sciences (with an A.A or A.S. degree), and Business Administration (A.S. degree). Within the Liberal Arts program the student may emphasize certain areas such as Theatre Arts, Judaic Studies, English, Philosophy, and Psychology, to name several

of the 13 specific areas. (See Curriculum Charts in the back of this publication for complete program offerings.)

Sullivan has a limited study-abroad program in all Associate degree programs.

It is recommended that the Director of Admissions be contacted or that the catalog be reviewed for detailed information with regard to the strengths of the programs at Sullivan.

CAMPUS
Situated on a 220-acre wooded site, Tompkins Cortland Community College (TC3) is located 45 miles south of Syracuse, New York midway between Ithaca and Cortland on Route 13. All of the campus facilities are located under one roof – a multi-purpose building on nearly 300,000 square feet. Full recreational facilities complement the ultra-modern educational facilities of the campus which opened in 1974.

HOUSING
Off-campus housing is available in and near Dryden. The Student Affairs Office maintains a file of available housing and serves as a clearinghouse for students. There are no restrictions on cars.

CAMPUS ACTIVITIES
There are currently over 30 clubs and organizations on campus including: intercollegiate athletics (baseball, basketball, lacrosse, soccer, wrestling), social clubs, honor societies, and intramural programs.

Ulster County Community College
Stone Ridge Road, NY 12484

ADMISSIONS STAFF (914) 687-7977
or (914) 687-7621 Ext. 40

Jean Louise Miles, Associate Director of Admissions; Director, Early Admissions Program
John Paul Frampton, Admissions Advisor, Foreign Student Advisor

CAMPUS
Ulster County Community College is located in Stone Ridge, New York approximately ten miles south and west of Kingston, on 165 acres of apple orchards and gently sloping meadows which rise up sharply to the Catskills on the west. The setting, aside from its beauty, offers the student access to a wide variety of recreational activities.

In addition to its proximity to Woodstock and New Paltz, the College is within two and one half hours of New York City. The campus consists of eight modern buildings. Special facilities include: a greenhouse, a small 600-seat theatre, an art gallery, a gymnasium seating 1,800 people, lighted tennis courts, and a computer center to which students have direct access.

Classrooms extend beyond the campus, with specialized course work taken at the Kingston City Laboratory, the Benedictine and Kingston Hospitals, and the Hudson Psychiatric Center. Extension centers for both credit and non-credit courses are located throughout the County to bring educational opportunities to all of its residents.

HOUSING
Ulster does not have on-campus housing facilities. It does, however, maintain a list of rooms and apartments which may be obtained from the Student Life Office.

CAMPUS ACTIVITIES
The College offers a wide range of activities for students beyond the classroom, and is a member of the National Junior College Athletic Association (NJCAA) and the Mid-Hudson Conference. Its basketball and soccer teams have won national recognition by competing in NJCAA Tournaments, and individual players have won All-American Recognition in many sports. Intercollegiate teams are fielded in basketball, skiing, cross country, soccer, wrestling, tennis, baseball, and golf. Women's intercollegiate teams are fielded in volleyball, softball, tennis, and basketball.

Ulster's drama program offers several productions a year, and a May tradition is the annual Renaissance Faire. Recent shows presented by students have included *South Pacific, The Boy Friend,* and *She Stoops to Conquer.* Since 1967, the Reader's Theatre has offered Fall and Spring productions. In the music field, students participate in the College chorus, orchestra, and a variety of instrumental ensembles. The College chorus and wind ensembles are fast becoming well known in the area for their outstanding performances. The College also presents concerts by leading professional concert artists and performing groups, and outstanding speakers appear on campus regularly. The College Art Series offers students, faculty, staff, and the community an opportunity to view a wide range of varied art forms through its regularly changing exhibitions and Meet-the-Artist programs. The

College Visual Arts Gallery is a center for creative activity, and functions as an environment for teaching, performing, and exhibiting.

The Student Government Organization manages all student activities and is the student's voice in campus affairs. It has, since the beginning of the College, been a dynamic element in campus life, maintaining a comprehensive program of social and cultural activities for the student body. It sponsors the College newspaper, literary magazine, and closed circuit television news and radio stations, and supports those academic, service, religious, and other groups which develop out of student interest.

ENROLLMENT 2,681

Average size of Freshman Class: 600

TUITION

NYS Residents:

$375 per semester
$ 27 per credit hour

Non-NYS Residents:

$750 per semester
$ 54 per credit hour

ADMISSIONS CRITERIA

The basic requirements for admission to the College as a full-time student are graduation from an approved secondary school or the successful completion of a New York State High School Equivalency Diploma. Full-time study is defined as a course load of 12 or more credit hours each semester. Applicants for full-time admission are required to take the ACT to assist in their academic placement.

In some instances, if the College deems it necessary, students may be required to make up academic deficiencies by participating in the Developmental Studies and College Skills Program, which provides the opportunity to develop skills that will enhance the potential for academic success. This program includes academic, personal, and career counseling, individualized instruction, tutoring, and testing designed to evaluate the student's progress.

Transfer students – Transfer student are required to have their former institutions forward an official transcript of their work to the Admissions Office for evaluation, and to follow the regular admission procedure. Consideration for admission to Ulster County Community College will depend primarily on evidence presented to indicate that the student is ready for further college study. Transfer students who desire to obtain a degree from Ulster County Community College are required to complete at least 30 semester hours of credit at this institution, regardless of how many transfer credits they may have at entrance. After having successfully completed their first semester at Ulster County Community College, transfer students are allowed to use a maximum of 12 credit hours of "D" work towards graduation.

Part-time Study – Part-time study is defined as a course load of less than 12 credit hours each semester. Part-time study at Ulster County Community College is open to any high school graduate or holder of the New York State Equivalency Diploma. Adults who lack this preparation but who might benefit from the college-level study, may be admitted through special arrangements with the Admissions Office, and may earn their equivalency diploma while completing college-level work. The part-time program is sufficiently broad in scope to meet the needs of students who vary in age, background, and objective. Part-time students may enroll in day or evening classes.

Advanced Standing – Admission with advanced standing is available to students who have taken Advanced Placement courses while they were attending high school. The College grants credit for New York State College Proficiency Examinations, CLEP, and RED examinations when these examinations cover material similar to that given in courses at the College. Credit will be given after the student has successfully completed his first semester of full-time study or its equivalent with a grade point average of 2.0 or better. Application for credit must be made with the Dean of Faculty.

ACADEMIC PROGRAMS OF STUDY

Ulster County Community College offers a variety of transfer, career, and diploma programs, including a new diploma program in Machining Technology. (See Curriculum Charts in the back of this publication for complete program offerings.)

Alan Seidman,
Director of Admissions (914) 347-6940

CAMPUS
Westchester Community College is located three miles northwest of White Plains and thirty miles north of New York City. The 218-acre campus, formerly part of the John Hartford Estate, was acquired in 1957. Five major academic buildings have been built since 1961, including a new Science Building which opened in Fall 1977.

HOUSING
There is no on-campus housing. Parking is available for 2,492 cars. Free bus service is provided between the White Plains railroad station and the campus.

CAMPUS ACTIVITIES
The College offers students many extracurricular activities. There are formal and informal dances, varsity club and intramural athletics, student publications, and more than 50 special interest clubs. Among the special events are a Festival of the Arts, several productions staged by the Westchester Community College Players, and Christmas and Spring concerts.

ADMISSIONS CRITERIA
Admission to Westchester Community College is open to any applicant who can benefit from the educational experience. To enroll as a matriculated student the applicant should possess either a diploma from a recognized high school or a New York State High School Equivalency Diploma. Selective admissions criteria are applied in certain curricula.

ACADEMIC PROGRAMS OF STUDY
Westchester Community College offers 30 Associate degree programs covering the areas of business administration, human and public services, humanities, behavioral and social sciences, natural and health sciences, mathematics, physical science, and engineering technologies. There are also 11 one-year Certificate programs offered. Our Associate degree programs in Respiratory Therapy and Radiologic Technology are fully accredited by the American Medical Association and are the only ones in the region. In addition, our business administration programs prepare students for either entry level positions in business or transfer study at four-year institutions. A recent addition is Apprentice Training in Automotive Technology, one of two such programs in New York State. (See Curriculum Charts in the back of this publication for complete program offerings.)

Empire State College
2 Union Avenue
Saratoga Springs, NY 12866

ADMISSIONS STAFF **(518) 587-2100**
Kay F. Katzer, Director of Admissions
Lora Montaque, Associate for Admissions

CAMPUS
Empire State College, founded in 1971, is a unique institution of higher learning whose students do not reside physically on a campus or meet in a classroom. Instead, the College operates Regional Centers and Units throughout New York State where students meet the advisors and utilize the facilities. In addition to the statewide Coordinating Center in Saratoga Springs, Regional Centers are located in Albany, Buffalo, Old Westbury, Metropolitan New York, Rochester, and Suffern. Small units are in Binghamton, Plattsburgh, Syracuse, Utica/Rome, New Paltz, Saratoga, Fredonia, Watertown, and several other locations.

HOUSING
Does not apply. Empire State College is a College without a campus.

CAMPUS ACTIVITIES
Because ESC students are widely diverse in age, background, experience, interests, and goals, the activities and involvement in the community are widespread. In the New York Metropolitan area, for example, students participate in many of the performing arts.

ENROLLMENT **Undergraduate: 3,110**
47% Male 53% Female

ADMISSIONS CRITERIA
There are two principal requirements for admission: possession of a high school diploma, its equivalent, or the ability to do college-level work as demonstrated by the applicant's presentation of work or life experiences and responsibilities; and the ability of the learning location to meet the applicant's explicit and implicit educational needs and objectives.

The College does not require SAT/ACT scores. Prospective applicants should consult the College Bulletin.

ACADEMIC PROGRAMS OF STUDY
Empire State College grants A.A., A.S., B.A., B.S., and B.P.S. degrees. In cooperation with faculty mentors (advisors), students develop individualized programs of study within the framework of both ESC and personal goals. These programs fall into ten general areas: the Arts; Business, Management, and Economics; Community and Human Services; Cultural Studies; Educational Studies; Historical Studies; Human Development; Labor Studies; Science, Mathematics, and Technology; Social Theory, Social Structure, and Change. Contracts between faculty mentors and students are the building blocks toward a completed degree program. Credit is also granted for prior learning from both formal and informal educational experiences.

FACULTY **154**

James Purdy, Director of Admissions
Kathy Mitchell, Counselor
James Pidgeon, Counselor
Keith Whittingham, Counselor
Gail Langsner, Counselor Assistant

CAMPUS

Fashion Institute of Technology (FIT) is located in the "garment center" in midtown Manhattan. Five of the seven buildings on this two block campus have been built since 1974. Academic facilities include: the Shirley Goodman Resource Center – for library/media services, a design lab and costume museum, and galleries; the Art and Design Building – for classrooms, various types of studios, darkrooms, and an amphitheater; the Dubinsky Student Center – with dining facilities, PE facilities, lounges, meeting rooms, a snack bar, bookstore, crafts center, etc.; the Business and Technology Building – containing classrooms, laboratories, design studios, and faculty and administrative offices; and the Administration and Liberal Arts Building – with classrooms and laboratories, the computer center, the student affairs office, and faculty and administrative offices.

HOUSING

The two on-campus residence facilities accommodate approximately 650 students. One facility is for women undergraduates only, while the other is co-ed. A limited number of on-campus apartments are also available. An off-campus housing list is available from the FIT Housing Department.

Public transportation is at an optimum, thus while cars are not prohibited they are not encouraged.

CAMPUS ACTIVITIES

Students may join any of approximately 45 school sponsored clubs and organizations in such areas as student government, publications, fashion design, marshal arts, and recreation and athletic organizations. The Dubinsky Student Center is the hub of student activities.

ENROLLMENT

Full-time: 3,108

Lower Division – $330 per semester
Upper Division – $430 per semester

Non-NYS Residents: (12 credits or more)
Lower Division – $660 per semester
Upper Division – $860 per semester

ADMISSION CRITERIA

The variables used to assess a freshman applicant's qualifications include: high school average (grades 9-11); rank in class; courses taken; scored from ACT/SAT; awards and honors earned; work experience (if any); portfolio (for all Art and Design applicants); and recommendations. While each applicant is considered individually, FIT will select (using the above variables) what it feels is the best all around applicant for its freshman class. March 15 is deadline for filing for Fall.

All students are admitted to a specific major and must indicate that major on their application.

For Fall 1979 over 5,000 applications are expected for 1,450 full-time day openings. Transfer applicants are considered along with freshmen, using the same variables plus a college transcript(s).

FIT is a "full opportunity" college, using both its regular Day Division and the Division of Continuing Education to accommodate all applicants.

ACADEMIC PROGRAMS OF STUDY

FIT offers an A.A.S. degree in 16 major areas, and has recently been approved to confer B.S. and B.F.A. degrees in 8 major areas. For specific information on these newly approved B.S./B.F.A. programs, please contact FIT's Admissions Office.

(See Curriculum Charts in the back of this publication for complete program offerings.)

Upstate Medical Center
155 Elizabeth Blackwell Street
Syracuse, NY 13210

ADMISSIONS STAFF (315) 473-4570

A. Geno Andreatta, Dean of Admissions and Student Affairs
Ronald Wolk, Assistant Dean (Medical School)
Lorraine Terracina, Assistant Dean (Undergraduate)
Patrick DiMauro, Associate Director (Undergraduate)

CAMPUS

Upstate Medical Center is located in the city of Syracuse, 248 miles northwest of New York City, just south of the intersection of Interstate Route 81 and the New York State Thruway (Exit 36).

Academic facilities include State University Hospital, Weiskotten Hall (academic building), the Campus Activities Building (student union/administration building), and the Computer Warehouse Center.

Most of the other hospital affiliates used for instruction are on, or adjacent to, the campus.

HOUSING

The two on-campus high rise residence facilities accommodate approximately 550 students in a variety of living styles. All incoming undergraduates under the age of 21 are required to live on campus (exceptions must be requested in writing). Upperclassmen and graduate students may request to live on campus but are not required to. A limited number of married student living units are available. For the convenience of students wishing to live off campus, the Housing Office maintains a list of off-campus rooms, apartments, and houses.

Off street parking is made available to all resident students. Residents may choose either an open parking lot or a modern parking garage.

CAMPUS ACTIVITIES

There are many extra-curricular activities at Upstate. Student representatives, through the appropriate student governments, schedule art exhibits, coffeehouse activities, movies, dances, clubs, lecture series (e.g., Humanistic Approaches to Health Care), social events, and intramural leagues on campus. In addition, subsidized tickets to the Syracuse Symphony, major concerts and plays, and State University sporting events are available. The Campus Activities Building contains a swimming pool, sauna bath, two squash courts, a handball/paddleball court, weight room, gymnasium, table tennis, billiard tables, television lounge, bookstore, and snack bar.

ENROLLMENT

Undergraduate: 261
Graduate: 605

35% Male 65% Female – Undergraduate
73% Male 27% Female – Graduate

ADMISSIONS CRITERIA

Factors in the selection of students include: completion of admissions course requirements; level of academic performance for all courses, particularly those required for admission to the specific program; standardized test scores; letters of recommendation; the student's motivation for a particular health career; communication skills; and evaluations from the personal interview.

In general, accepted applicants have grades of "B" or better in the courses required for admission. Since applicants are reviewed by program, the high school averages and test scores of the accepted students will vary, by program, each year.

All applicants must apply to only one specific program at a time. There are no liberal arts, general education, or pre-medical school majors.

To be accepted, all applicants must complete all courses required for admission, **prior to matriculation.** Volunteer or observational experiences in the specific hospital department are strongly recommended. High school courses required for entrance into the Associate degree programs include biology, chemistry or physics (depending on the curriculum), and math. Entrance into all Bachelor's degree programs is through transfer of college credit (60-90 hours). Since requirements vary and are quite specific for each program, please consult the Admissions Office or *Let's Talk Transfer.*

A Supplemental Information form must be completed by each applicant. Forms for letters of recommendation are also provided. Each applicant receives these forms shortly after our receipt of a Personal Input Card, (part of the SUNY application).

All applicants are advised to submit a SUNY S-1 application prior to January 15.

ACADEMIC PROGRAMS OF STUDY

Associate degree programs: Extracorporeal Technology, Respiratory Therapy, Radiologic (X-Ray) Technology, Radiation Therapy Technology.

Bachelor's degree program (upper division transfer **only**): Cytotechnology, Physical Therapy, Medical Technology, Respiratory Therapy.

(See Curriculum Charts in the back of this publication for complete program offerings.)

FACULTY 295

TUITION REFUND

(See "About *Profiles*" in the front of this publication.)

GRADUATES

Information not available at this time.

EARLY ADMISSION: Yes
SPECIAL TALENT ADMISSION: No
TIME-SHORTENED DEGREE: *
DEFERRED ADMISSION: No
OPEN ADMISSION: No
PARTICIPATES IN APC: Yes

*Cytotechnology only.

Curriculum Charts

The programs available at the colleges described in this book are listed in several charts:

There is one set of charts for the Agricultural and Technical Colleges.

There are two sets of charts for the Community Colleges: one set for those colleges which participate in the Common Application Program through the Application Processing Center (APC); and one set for those colleges which use their own application form and application process.

Please be sure to check **each** of the charts for the curriculum of your choice.

The curriculum are listed in alphabetical order. Major programs as listed in capital letters. Options (fields of concentration within a major) are listed alphabetically and also indented under their respective major. The key to the letters appearing in the columns under the college names is in the upper left corner of each chart.

Dates to Remember

Closing Dates

Certain programs or colleges may close to further applicants at anytime. Closing dates vary and are influenced by the number of applications received by a college.

Notification Dates

TWO-YEAR COLLEGES operate on rolling admissions. (See exceptions below.) Because programs are filled on a first-come, first-served basis, applicants are advised to file early. Applicants are notified of a decision as their completed credentials are reviewed at the local admissions office.

FOUR-YEAR COLLEGES AND UNIVERSITY CENTERS will notify freshman Fall term applicants of an admissions decision after January 1. Notification after that date will vary from campus to campus because of differing campus policies and admission requirements (test scores, supplemental forms, interviews, etc.). Transfers and all Spring applicants are notified on a rolling admission basis. (Transfer guarantee applicants: see December 15 and March 1 below.)

October 15
- Deadline for filing Spring applications for transfer guarantee applicants.
- Recommended Winter/Spring filing date at APC for four-year colleges.

November 1
- $50 tuition deposit to four-year colleges and university centers for Winter/Spring terms must be made by this date or 30 days after acceptance, whichever is later, but before registration.

November 15
- Deadline for filing Spring applications to Onondaga for Nursing.

December 1
- Recommended Fall filing date for Nursing at Alfred; program subject to closing after this date due to high demand.
- Applications to Hudson Valley for Nursing and Dental Hygiene filed at APC by this date receive equal consideration for admission. (See January 31)

December 15
- Applications to Farmingdale for Dental Hygiene and Nursing filed at APC by this date receive equal consideration for admission.
- Applications to Morrisville for Nursing or Animal Husbandry – Horses filed at APC by this date receive equal consideration for admission.
- Deadline for filing Fall applications for transfer guarantee applicants.
- Spring transfer guarantee applicants will be notified of decision on complete applications by this date.

January 1
- Notification of decisions on complete applications will be sent out after this date to freshman applicants to four-year colleges and university centers for the Fall term.

January 15
- Applications to Delhi for Veterinary Science Technology filed at APC by this date receive equal consideration for admission.

January 31
- Recommended Fall filing date for transfers ineligible for the transfer guarantee.
- Deadline for filing applications to Hudson Valley for Physician's Assistant.
- Applications to Hudson Valley for Nursing and Dental Hygiene filed at APC from December 1 to January 31 receive equal consideration for admission.

March 1
- Admissions Assistance Service begins operation.
- Fall transfer guarantee applicants will be notified of a decision on complete applications by this date.

May 1
- $50 tuition deposit to four-year colleges and university centers for Summer/Fall terms must be made by this date or 30 days after acceptance, whichever is later, but before registration.

NOTE: Applications received after dates recommended above will be considered as space is available.
